PROHIBITION DRY RULE BY GUNS

3D PARTY FLAG IS UNFURLED BY BROOKHART

Blames Hoover for Farm Tangle.

BY ARTHUR CRAWFORD.

Washington, D. C., June 12.—(Special.)—Enactment of a farm relief bill satisfactory to President Hoover appeared probable today, but there were evidences that the conflict between the executive and congress will have far reaching ramifications.

Republican leaders were confident the house tomorrow will vote against the export debenture plan and that this quickly will be followed by approval by the two houses of the conference report in its original form.

President Hoover was given assurance to this effect by a number of his advisers in congress.

Possible effect of the controversy on next year's congressional elections and on the 1932 presidential election as well as on the tariff situation was apparent in a speech by Senator Smith W. Brookhart (Rep., Ia.) in the senate.

Promises Finish Fight.

The Iowa senator, who was an active farm campaigner last fall, but who with the President on farm relief legislation, undertook to reply to the latter's statement criticizing yesterday's rejection by the senate of the farm bill conference report.

"I desire to say to the progressive members of the senate on both sides of the aisle that if this proposition (the debenture) is rejected the time has come to organize for a fight to the finish," said Senator Brookhart.

"If the debenture cannot be put into the farm bill, I think the bill should be permitted to pass without it."

"If there were nothing to hope from this bill by its present provisions, I would vote against it. But I believe we will be able to put the debenture into the tariff bill. In order to make sure that this is possible, we should at once organize to put up a progressive candidate in every congressional district and for senator in every state who will fight for this program."

Drops Progressive for President.

"And if the bill should be vetoed, we should follow this with a progressive candidate for President."

Senator Brookhart contended that the President, rather than the senate, is responsible for delays in obtaining farm legislation.

"It was one of those who asked for a revision of congress to consider the farm legislation," said the Iowa senator. "I did not because I did not consider the Coolidge-Jardine farm bill was adequate and confidently expected a better bill from the new President."

He added strength to that confidence by his silence, and the farm bill was not considered in the short session of congress.

"If the President elect frankly had made known the fact that he would not support a better bill than the Coolidge bill, it might just as well have been passed in the short session of congress."

Tacks Blame on Hoover.

"If there is any delay in the enactment of farm legislation under these conditions, the blame rests upon the President himself and not upon the senate that is doing its duty in its efforts to solve this great problem."

NEWS SUMMARY

of The Tribune
(And Historical Scrap Book.)
Thursday, June 13, 1929.

PROHIBITION KILLINGS.

Reckless dry law killings to go on, enforcement officials intimate, unless Hoover calls a halt.

Dry law killings are denied a new trial.

U. S. dry agents raid favorite Madison drug store of Wisconsin legislators.

Man delivering whisky to spy for dry law, may die.

Congressional inquiry likely into killing of Virkula by customs dry patrolman.

Reuter, Detroit target of dry law bullet, direct companion admits they had rum cargo.

Former dry law officer slain in ambush in Alabama.

Liquor runners unite to fight huge dry navy.

Senator Brookhart hints at a third political party in coming elections; blames Hoover for farm tangle.

Senator Norris asks senate investigation of Chicago Railways company receivership.

LOCAL.

Hunt Rongetti as coroner's jury orders him held to grand jury in woman's death.

Frankie and Johnnie give up fight to keep on living in Chicago; police action indicates other snappy snags may go.

Beaten by husband despite her boxing lessons, wife says; she asks divorce.

Dog racing tracks resume operation while Judge Fisher considers question of legality of raids.

American film company's movie burst in Africa destroyed by drought.

Prince Louis de Bourbon throws over Mabel Gilman Corey, former chorus girl.

DAWES TO VISIT MACDONALD AT SCOTCH HOME

Envoy to Rush Right Into New Job.

BY JOHN STEELE.

[Chicago Tribune Press Service.]
LONDON, June 12.—With hardly a moment's breathing space after landing in England Friday, Gen. Charles G. Dawes, new American ambassador to the Court of St. James's, will rush off to Scotland for a conference with Prime Minister Ramsay MacDonald, where some of the weightiest problems of his ambassadorship are slated for discussion. He also will call on King George at Windsor.

An exchange of wireless messages between the Labor premier and the liner Olympic, on which Ambassador Dawes sailed from New York on Friday, had arranged for a visit to Lonsmouth, Scotland, Mr. MacDonald's old home town, where he arrived today to spend his vacation. A game of golf is the pretense of the meeting with Mr. MacDonald, but weightier matters than golf are going to absorb the attention of the representatives of the two great English speaking nations.

Dawes Refuses Interviews.

In response to a wireless request from a London newspaper today for a statement Gen. Dawes sent the following message from the Olympic:

"I appreciate the quite natural interest of the press in the matter of my official instructions on all subjects; but upon reflection you will appreciate the wisdom of my declining to be interviewed upon them."

The prime minister intends to stay at Lonsmouth ten days. He received an enthusiastic welcome from the local residents when he arrived with his daughter, Isabel. He was greeted with bonfires on the surrounding hills and the sand dunes.

British Leader Looks to America.

A good deal of Mr. MacDonald's action in the opening weeks of his régime may hinge upon this important meeting with Ambassador Dawes. One question which will arise is that of recognition of Russia. On this Mr. MacDonald so far has not committed himself.

The new prime minister's policy is likely to lead definitely toward the United States. Mr. MacDonald believes that the future of Great Britain and the future of world peace depend upon the cooperation of Great Britain and America, and he is likely to consult the American views on many points.

May Invite MacDonald to U. S.

Ambassador Dawes is expected to deliver to Mr. MacDonald an invitation to visit America to hold a three-cornered conference with President Hoover, with Prime Minister Mackenzie King of Canada as the other party, to consider details of cooperation between the English speaking races.

After Ambassador Dawes has finished his conference with Mr. MacDonald, he will rush right back to London, where he will be the guest of honor at a dinner given by the Pilgrims club—the Anglo-American golf and athletic association. All in all, it looks as if the new American envoy will be busy.

Ex-Cop Gets Appointment.

Nothing is more symptomatic of the change which has come over British politics and society than the appointments to court offices made by the new Labor government. The appointees are Jack Hayes, Labor member from Liverpool, as vice chamberlain of the royal household, and Ben Smith as treasurer of the royal household.

Mr. Hayes is a former policeman who was dropped from the force a few years ago for taking part in the London police strike and Mr. Smith is a former taxi driver.

It is Mr. Smith's duties to supervise all of the king's official expenditures, and his office in Buckingham palace brings him into almost daily contact with the sovereign.

Mr. Hayes, who becomes one of the great officers of state, is official bearer of messages from the king to parliament. On such occasions he wears magnificent court dress with knee pants and a coat covered with gold braid. He wears a sword.

Must Walk Backwards.

When the former policeman enters the house of commons to deliver a royal message, he will proceed up the floor, bowing every few steps to the speaker, and read his message at the table. He will then make his exit, walking backwards and continuing to bow every few steps as he does so.

Ex-Politician Hayes must also attend the king and queen at all state functions dressed up in all his decorations.

CARTOONS OF THE DAY

June is losing her reputation.

The race across the Atlantic.

Four Chicago Women Fined for Smuggling

New York, June 12.—(Special.)—Four Chicago women, one of them Mrs. Anna H. Loeb, widow of Albert H. Loeb, who was vice president of Sears, Roebuck & Co., today paid customs fines aggregating \$27,036 for attempting to smuggle in wearing apparel upon their arrival here from Europe aboard the Leviathan last Saturday. Mrs. Loeb is mother of Richard Loeb, one of the slayers of Bobby Franks.

Besides Mrs. Loeb, who paid \$2,375.50, fined were Miss Rose Loeb, who paid \$4,410.85; Miss Virginia Bohlen of 6817 Bennett avenue, and Miss Anne M. Katholing of 1189 Locust avenue, who shared the remainder of the fine. Both Mrs. Loeb and Miss Loeb gave their address as 6017 Ellis avenue.

Receive Tips from Paris.

The fines were said to have grown out of "grapevine" tips received by customs men from undercover treasury agents in Paris. Several such tips have been received in the last few days, it is understood. One of them resulted in the seizure today of the time a lawyer for the Chicago woman was presenting certified checks to cover their fines—eleven pieces of baggage brought in by Mrs. Charles Cary Rumsey.

Mrs. Rumsey, daughter of the late E. H. Harriman and widow of the noted polo player and sculptor, was halted as she came into port on board the French liner France.

An appraisal was made on Monday and the women were notified to appear at the customs house today and settle up. Instead, they sent a lawyer to explain the matter and to get the checks, taking the receipts, and going his way.

Question Mrs. Rumsey.

Mrs. Rumsey had four large trunks and five smaller pieces of baggage. All were promptly emptied of their contents and a thorough inspection of each article was begun.

The customs inspectors, who had received a tip from Paris that Mrs. Rumsey had purchased a diamond bracelet, a pin and a pendant in the city, were not satisfied with her explanation that she had owned them for 10 years. They seized the bracelet and a watch and then went aboard the ship to make a further search.

Finally the inspectors sealed all of Mrs. Rumsey's baggage and sent them to the appraiser's store.

REFUSE COMMENT.

When Mrs. Anna Loeb and Miss Rose Loeb, who live at the same address, 6017 Ellis avenue, were reached yesterday by telephone they refused to discuss their customs fines.

THE WEATHER

THURSDAY, JUNE 13, 1929.

Sunrise, 5:14; sunset, 8:26. Moon sets at 1:28 a. m. on Friday. Venus is a morning star; Mars and Mercury are evening stars.

Chicago and vicinity: Cloudy to cloudy with drizzle; moderate northerly wind; Friday mostly clear with rising temperature.

Illinois—Mostly drizzle Thursday, probably local showers in south portion; cooler in north central portion; Friday partly cloudy and somewhat warmer.

treasures, threats—all to no avail. The inspectors ordered the whole layout of the apartment to be searched, and the pieces of baggage were listed in the names of the two Loeb women, seven of the trunks were accredited to the ownership of Mrs. Katholing, and the other five to Miss Bohlen.

An appraisal was made on Monday and the women were notified to appear at the customs house today and settle up. Instead, they sent a lawyer to explain the matter and to get the checks, taking the receipts, and going his way.

Question Mrs. Rumsey.

Mrs. Rumsey had four large trunks and five smaller pieces of baggage. All were promptly emptied of their contents and a thorough inspection of each article was begun.

Senate Quiz on Transit Case Here Is Asked

[Chicago Tribune Press Service.]
Washington, D. C., June 12.—(Special.)—Investigation of the Chicago Railways company receivership, which he claimed was the result of "collusion" between officials of the transit company and the Westinghouse Electric and Manufacturing company, as proposed in the senate today by Senator G. W. Norris (Rep., Neb.).

A resolution authorizing an inquiry by the judiciary committee of the federal court proceedings which resulted in the appointment of John J. Mitchell and Frederick H. Rawson, Chicago bankers, with Henry A. Blair, president of the railway company, as receivers, was referred to the judiciary committee, of which the Nebraska radical is chairman.

Says Insull Sought Control.

In the resolution Senator Norris asserted the apparent purpose of the appeal to the federal court for the appointment of receivers was to "deprive state courts of jurisdiction in the foreclosure of trust deeds securing the payment of approximately 100 million dollars of bonds in default since Feb. 1, 1927," and also to "control or largely influence the reorganization of Chicago traction interests and the state legislation affecting such reorganization and refinancing."

The scheme, the Nebraska senator charged in his resolution and in a statement on the senate floor, was one phase of the efforts of Samuel Insull, Chicago power magnate, to secure complete control of Chicago's public utilities.

The resolution pointed out that Federal Judge James Wilkerson, in appointing Mitchell, Rawson and Blair as receivers, allowed them annual salaries of \$40,000 each, in the aggregate "several times the amount" of the \$67,075 claim presented by the Westinghouse company as the basis for the receivership petition.

Claims Company Had the Money.

At the moment its attorneys appeared before Judge Wilkerson and consented to the appointment of receivers, the Chicago Railway company, according to the resolution, "had many times the indebtedness claimed by the Westinghouse company on deposit in various banks and could have paid the bill," avoiding the receivership.

Blair and Mitchell were directors in the Commonwealth Edison company, of which Insull is chairman. Blair, allowed a salary of \$40,000 a year as receiver, was drawing \$40,000 a year from the traction company as its president. Then, in addition to naming three receivers, the judge appointed one attorney at \$25,000 a year and another at \$24,000, as well as a secretary at \$4,000 a year, all for the purpose of collecting this \$167,075.

The Harris Trust company of Chicago, which holds millions of the railway company bonds, could have initiated litigation in the state courts, but Senator Norris asserted, "the case" by which receivership was brought about was decided upon in order "to get into the United States courts."

Death Sentence for Bolivia Woman Who Killed Priest

LA PAZ, Bolivia, June 12.—(U. P.)—The death sentence was passed today on a woman, Miss Adelaida Alaga, who was convicted of the assassination of a priest, Father Emilio Rosillo Rosillo.

2 Planes All Ready to Hop Over Atlantic

BULLETIN.

Old Orchard, Me., June 13.—(Thursday.)—(U. P.)—The Yellow Bird and the Green Flash awaited low tide today to attempt a takeoff. It was not believed a start would be possible before 8:30 a. m. (Chicago daylight saving time.) Both crews were ready and the planes were said to be fit. Roger Q. Williams, pilot of the Green Flash, said at 7:30 that he doubted if the light breeze then in the southwest would be strong enough to enable the Green Flash to get off the sand. The wind shifted to the west shortly before 9 o'clock (eastern daylight time), which put a cross wind over the beach. The flyers said this was worse than no wind at all.

Green Orchard, Me., June 13.—(U. P.)—Crews of both the French monoplane, Yellow Bird, and the Green Flash, the American plane, were up early today and ready to start on their flights across the Atlantic, the former for Paris and the latter for Rome.

Lewis A. Yancey and Roger Q. Williams, navigator and pilot, respectively, of the Green Flash, appeared first. Mrs. Yancey accompanied her husband as they breakfasted at the hotel. Just as they were leaving for the hangar the Frenchman, Armeno Lotti Jr., Rene Lefevre and Jean Assolant, came down to breakfast. All seemed in good spirits. Assolant's bride of three days, whom he wed after a week's courtship here, accompanied them.

Crowds Gather for Takeoff.

Crowds of spectators began to gather on the beach near the planes at 8 o'clock. Yancey and his wife arrived from the hotel and she chatted gaily with a group of friends while the navigator put some personal belongings in the cockpit of the Green Flash.

The plane was loaded with 541 gallons of gasoline, it was announced. This included five five-gallon cans which were stowed away in the tail of the fuselage.

Assolant, who is but 23 years old, and Mrs. Assolant drove to the hangar near where the planes stood. The young bride seemed more serious than the wife of the navigator of the American plane. No smile crossed her face as she talked with her husband and friends.

King Sends Good Wishes.

The good wishes of King George of England and the English people were extended to the flyers and both ships by the London Daily Mail, which called Yancey on the telephone at the hangar.

Lotti, when he arrived at the planes, said the Yellow Bird had 874 gallons of fuel—a mixture of Benzol and gasoline—on board.

HOSPITAL CALLS HELP; TOO MUCH LIQUOR ON HAND

Here's a telephone conversation of yesterday:

"Hello, prohibition office? Please send some men out here to destroy some of our liquor. We have more on hand than the law allows. Certainly it's good stuff, but we are not allowed even to give it away. This is the Michael Rees hospital, Dr. J. H. Smith, superintendent, speaking."

Deputy Prohibition Administrator William H. Kennedy dispatched two of his best liquor destroyers to the hospital and there was the liquor, forty bottles, old brandies, choice cordials, and wines.

Dr. Smith explained that a benevolent old gentleman, whom he wouldn't name, bequeathed the contents of his cellar to the hospital. But he had too much and the prohibition law does not define that class of drinkables as medicinal liquor. The forty gallons of mellow bourbon in the bequest was saved, since it did not overstock the hospital beyond the limitations of the law.

The agents reported that they took the bottles out in the alley and broke them all.

KILLING NOT TO AFFECT POLICY, LOWMAN SAYS

Only President Can Check Violence.

Keeping Dry by Powder

WASHINGTON—Prohibition officials say rate by gun will continue. Lowman insists it is necessary. No one else will talk about it. Congress asked to pay \$25,000 to dependents of those killed by prohibition agents.

DETROIT—Run running leaders of all sections of country unite in single combine to use "business methods" against United States dry forces.

LOUISVILLE—Federal judge upholds sentence of two raiders who killed, and were tried in federal instead of state courts.

DETROIT—Companion of youth killed by border patrol admits he was run runner.

MADISON, Wis.—Oasis of Wisconsin legislature raided and closed by United States agents.

SILVER CITY, N. M.—Dry agent traps bootlegger into selling liquor and other dry agent shoots him, probably fatally.

HUNTSVILLE, Ala.—Former dry agent killed from ambush.

INTERNATIONAL FALLS, Minn.—Citizens ask inquiry by congress into killing of citizen by border patrol.

FORT SMITH, Ark.—Dry law sends mother of sixteen to jail.

WASHINGTON—Mabel Willebrandt, who has resigned, will remain on job a while longer.

[Chicago Tribune Press Service.]
Washington, D. C., June 12.—(Special.)—There will be no modification of the government's "ruthless prohibition policy," which has cost the lives of two men in less than a week, unless President Hoover acts to curb the use of firearms by the 25,000 agents in the federal dry army.

Seymour Lowman, assistant secretary of the treasury in charge of customs, prohibition and coast guard, the triple armed agencies of the government in dry enforcement, made this clear today. In response to queries, he asserted that the killing of Henry Virkula, International Falls restaurant man, and Archibald Reuter of Detroit during the last four days by customs agents would have no effect on government policies.

Mr. Lowman, who presumably voiced the opinion of Secretary of the Treasury Andrew Mellon, defended the use of firearms by prohibition personnel and asserted that agents would continue to be allowed to shoot at automobile tires. Lowman declared that agents had been cautioned for more than a year against reckless use of firearms, and that he did not see what more could be done to prevent killings without crippling enforcement.

Killers to Be Defended.

Although a full report of the shootings in Minnesota and Michigan has not reached the department, government officials said the cloak of federal protection would be thrown around the killers if this added protection was asked by the customs agents. Mr. Lowman said that regardless of the facts in the cases, the government must defend the agents if they ask for protection. Department of justice officials apparently are prepared to defend the killers if such protection is requested.

Department of justice officials expect the Virkula case will be transferred to the federal courts. Attorney General William D. Mitchell declined to discuss the case today. Mr. Mabel Willebrandt, assistant attorney general in charge of dry law prosecutions, advised reporters that she had not received a report on the Virkula matter and therefore could not comment on it.

Mistakes Permissible.

Mrs. Willebrandt said, however, that in all cases where a treasury agent could prove before a state court that he was a treasury agent, and that he was performing his duty—whether rightly or wrongly—at the time an alleged crime occurred, the state court judge had no other alternative but to transfer the matter to the federal courts.

Mrs. Willebrandt added that after a case against a treasury agent was transferred to a federal court, it was the duty of the district attorney to present the facts for the defendant while the state prosecuted.

Whether President Hoover will take steps to make the highways of

the nation safe for motorists by ordering more drastic regulations for prohibition personnel could not be determined today. Indications, however, were that nothing would be done, although it was learned there is a possibility Lowman may be replaced by another man. President Hoover was represented as manifesting a keen interest in the circumstances of the Kirkland slaying.

Mrs. Kahn Introduces Bill.

Among other developments of the day in the fight to halt dry killings was the introduction of a bill in the house directing the treasury to pay \$25,000 to the dependents of every person "wantonly or negligently killed by any prohibition officer not acting in self-defense." This bill was introduced by Representative Florence Kahn (Rep., Cal.), after Lowman had refused to heed the demands of congressmen that the treasury ban the use of firearms by prohibition agents.

Mr. Lowman asserted that it was not practicable to disarm dry agents. "To disarm agents," Mr. Lowman said, "would cripple their effectiveness in dealing with armed bootleggers and smugglers. With lawbreakers ready to open fire, armed men are necessary to enforce the prohibition laws."

"What about the killing of Virkula?" Lowman was asked. "This would not have happened if the customs agent had not been armed. We have not received a report on that case," Lowman answered. "It will probably arrive the last of the week. The Virkula case looks bad. If the accounts of the shooting in the press are true, White was not justified in firing under his instructions."

Killer May Lose Job.

Mr. Lowman intimated White would be discharged if the facts disclosed he had been reckless.

"Our men are instructed not to fire, except in self defense or to stop the commission of a felony," he said.

From Lowman's remarks, it was apparent that White may justify himself on the ground that he was shooting at the tires of the car carrying Virkula, his wife and two little girls, and not at the body of the machine.

"Will this affair stop the agents from firing at the tires to stop cars?" Lowman was asked.

"It will not," Lowman replied. "Agents are allowed to fire in these certain cases if motorists do not stop when commanded to do so."

Humanitarian Duty.

Mrs. Kahn declared her proposal was based on the theory that the government must be responsible for the acts of its agents, and she added: "I can conceive of no circumstances under which killing, except in self defense, is justified in enforcement of this law." The California member asserted that she would urge consideration and passage of her bill, "as the plain humanitarian duty of the government."

"This," she said, when she introduced the bill, "is not a 'wet' or 'dry' bill. It is a humanitarian measure designed to relieve want and suffering by those upon whose government agents have brought disaster.

"Many innocent people have been killed by prohibition enforcement officers and many more have been injured. In many instances persons who are the sole support of their aged parents or families have been killed or permanently injured.

"A moral responsibility is involved, and I feel that these people have a just claim on the government."

DRYS SENTENCED IN SLAYING ARE DENIED RETRIAL

Judge Holds Conviction of Pair Rightful.

Louisville, Ky., June 12.—(AP)—Two officers who killed in a prohibition raid were held to have been rightfully convicted when they appeared before Judge Charles I. Dawson in federal court today and asked for a retrial of their case. In the first trial each was convicted and sentenced to two years' imprisonment.

The officers, Roy Miller, prohibition agent, and Clarence Gossett, deputy sheriff, both of Hopkinsville, Ky., were said to be the first ever convicted of killing a citizen when a case of that nature was transferred from a state to a United States court.

New Evidence Claimed.

District Attorney Thomas J. Sparks appeared as counsel for the defendants, who shot Frank Sears in a raid on his Christian county still in 1925. He asked a new trial on grounds that jurors in the first hearing, in Paducah, Ky., in April, had been allowed to read newspaper accounts of the trial while they were still in doubt as to a verdict.

He also said that there was new evidence discovered to the effect that Sears was ambidextrous. One of the points made by the prosecution, which was conducted by Commonwealth's Attorney John L. Grayot, was that the victim was left handed. The officers had said they shot because Sears had a pistol in his right hand.

Judge Upholds Verdict.

After asserting that the newspaper accounts of the trial had been fair and impartial, Judge Dawson said he believed the jurors hesitated only because they disliked to imprison men of the defendants' good reputation for killing of "the sort of man Sears appears to have been."

Points made by the court in overruling the motion were that Sears was not under arrest when he was shot, that he was not charged with a felony, and that he was shot nine times in the back.

MAN GIVING WHISKY TO PROHIBITION SPY IS SHOT BY OFFICER

Silver City, N. M., June 12.—(U. P.)—J. Thompson, who was seriously wounded by prohibition agents here yesterday while delivering a bottle of whisky to a purchaser, learned in a hospital today that the purchaser himself was a paid worker for prohibition agents.

Thompson was shot in an exchange of bullets with Tom McSherry, deputy sheriff, and W. L. Hill, prohibition officer, when he attempted to deliver a five gallon container of whisky to Simon Oropesa, who had ordered it by telephone. It was revealed today that Oropesa had been hired by the officers to order the whisky that they might trap Thompson.

No action has been taken against McSherry.

McSherry and Hill said they called upon Thompson to surrender when he was in the act of handing the liquor to Oropesa. They claimed that he refused to surrender and started to fire at them. Then, McSherry said, he shot Thompson.

Physicians say Thompson will die.

U. S. DRY AGENTS RAID CAPITAL OF WET WISCONSIN

Nab Solons' Favorite Drug Store.

Madison, Wis., June 12.—(Special.)—Legislators who found federal officials making beer scarce at the Republican birthday party at Ripon last week are now faced with the prospect of a prolonged drought in Madison.

The Park Hotel pharmacy, occupying one of the two popular legislative hotels here, was raided late last night by federal agents and the proprietor, Andrew B. Helstrom, and two of his clerks, William K. Mills and Allan G. Meek, were arraigned today and slated for preliminary hearings June 26.

The federal dry fourths contend that besides finding illicit liquor in the establishment they also confiscated a long list of names, including those of legislators, state officials and prominent Madison residents. These men are claimed to have been the favored liquor purchasers.

Raid Thought Retaliatory.

The raid on the Park Hotel pharmacy was seen by wet legislators as a start of a dry crusade in the capital, partly as an act of discipline to the legislature for repealing the state dry act and more directly because of the resolution drawn by Representative L. A. Lamoreaux of Ashland, which would ask congress to keep federal dry sleuths out of the state and leave Wisconsin as wet as its populace and the legislature desires.

Lamoreaux drafted his resolution because of the dry raids at Ripon last Saturday, while the Republican party was holding its 75th birthday party there. But a number of the leading legislative wet leaders feel that the Lamoreaux document is a mistake, and are opposed to it. The resolution may be offered in the house tomorrow.

The raid on the Park hotel drug store is expected to have an immediate effect in shutting off local liquor supplies, even to legislators.

THIRSTY CAPTIVES MADE TO EMPTY 800 RUM BOTTLES

Sgt. John Mox of the Des Plaines street station faced the task yesterday of destroying 800 half pints of alcohol and gin seized in a raid. He took from their cells two West Madison street cannies, Charles and William Brown, and told them to pour the contents of the bottles into the station sink. The two men had been arrested for drunkenness and their misery was apparent, but Sgt. Mox stood over them for two hours, making sure that none of the liquid went anywhere except down the sink.

GOVERNOR TO SIGN THE BILLS

Final Conference Stormy

BY PARKER

(Chicago Tribune)

Springfield, Ill., June 12.—The close of a long day today Gov. Low was the last to leave the capitol building. He was the last to leave the capitol building. He was the last to leave the capitol building.

"I shall probably not," he said to "I feel there should be a delay."

His decision to delay in view of his illness to aid a settlement of the political problem and the new developments during the hearing, he said that he will leave Saturday noon for his home in Springfield.

New Evidence.

The governor's own was a remark that he made today's discussion. The utterances of Judge Dawson, counsel for the Mr. Harlan for his fight against the Mr. Harlan was in his speech at the legislative session, but his only August Nichols and Mr. Harlan, who spoke at the hearing.

Attorney General Harmon was present, but did not participate in the day he had given his official approval as to their last step required Mr. Emmerson.

Shamaker's Speech.

Speaker Shamaker when Attorney Harlan took the action of the bill program. The law Tuesday, May 7, expected the bill for second reading member of the Wisconsin assembly with Shamaker's statement. He was some one who he termed Gotthard A. speaker, who acted as a lobbyist, had that 100 votes up" and implied it was addressed to "That's as false as ever made by man, sham, rising from his but myself knew were to be called statement."

Here Gov. Low speaking directly "If there are an equal nature here, have to be substantiated."

Encounter.

That ended the time being, but just afternoon hearing again asked for the "As the governor," I came here today duty of signing bills assembly in order to be admitted, for the government.

"Those bills were ordinary and regular and I know of odds in connection with to say to you that if you recall of crooked methods with these bills, it them."

Mr. Harlan had speech by repeating Chairman Simpson's committee, as a legislative committee of Edison company, gave a short answer "This is not the and I don't intend to be an invader," said, addressing the people of Chicago know Harlan. And is anything Harlan.

GOVERNOR DUE
TO SIGN TRANSIT
BILLS SATURDAYFinal Conference Is a
Stormy One.BY PARKE BROWN.
(Chicago Tribune Staff Writer.)

Springfield, Ill., June 12.—[Special.]—The close of a five hour hearing in his office on the Chicago transit bills today Gov. Louis L. Emmerson indicated that he will pass judgment on the measures during the next few days.

"I shall probably act on them this week," he said to newspaper men. "I feel there should be no unnecessary delay."

He declined to disclose his position, but in view of his expressed willingness to aid a settlement of the metropolitan problem and since there were no developments of importance during the hearing today, it is believed that he will sign the bills before Saturday noon. That will put them into effect on July 1.

The governor's only other comment was a remark that he regretted that personalities had been brought into today's discussion. The row arose over the utterances of John Maynard Harlan, counsel for the Lisman interests. Mr. Harlan for months has led a fight against the bills.

Mr. Harlan was a little more free in his speech at today's discussion than at legislative hearings on the bills, but his only supporters were August Nichols and Charles K. Mohr, who spoke at the legislative gathering.

Attorney General Oscar E. Carlson was present during the discussion, but did not participate. Earlier in the day he had returned to the governor's office the transit bills sent him for examination, and his approval as to their legality was the last step required before action by Mr. Emmerson.

Shanahan vs. Harlan.
Speaker Shanahan's temper arose when Attorney Harlan was discussing the action of the house on the transit program. The lawyer said that on Thursday, May 7, when it had been expected the bills would be called up for second reading, A. A. Sprague, a member of the Wilkerson committee, met with Shanahan on the speaker's platform. He went on to say that someone, who he said later was Attorney Gotthard A. Dahlberg, former speaker, who acted as one of the city lobbyists, had reported to Sprague that 100 votes had been "rounded up" and implied that the report also was addressed to the speaker.

"That's as false a statement as was ever made by man," interrupted Shanahan, speaking from his chair. "No man has ever known whether those bills were called up. I resent your statement."

Gov. Emmerson stepped in, speaking directly to Harlan. "If there are any charges of a personal nature here," he said, "they will be substantiated."

Becomes French Flyer's Bride

Mme. Jean Assolant, bride of pilot of French plane that is about to attempt flight across the Atlantic, who was Miss Pauline Parker, New York chorus girl, before marriage at Portland, Me., Monday. (Pacific and Atlantic Photo.)

Influence their opinion in the slightest degree."

Ald. McDonough was less restrained. "If you sign these bills," he said to the governor, "they'll have to go to the city council. Within a week I'll have them before the committee and we'll go to work on the question of valuations Mr. Harlan spoke about. And the valuation figures won't be anything like what he talked about."

"Crooked," Harlan says.
Attorney Harlan's charges included a statement that Henry A. Blair of the Surface lines told him on Nov. 28 of the plan to effect the appointment of a settlement committee headed by Mr. Simpson, and that he also named three other members of the committee named by Judge James H. Wilkerson on Dec. 6. Then he went to assert that the "stake" of the Commonwealth Edison company in a transit settlement would be \$45,000,000 through its holdings in Chicago Rapid Transit.

He denounced the bills as "crooked," defining that word as meaning a "substantial deviation from the straight line of common honesty and decency."

"But I can't come in here and say I've got pictures of some one giving money and some one taking money," he admitted.
He discussed his amendments, which were rejected by both houses, and urged the governor to veto the bills and send them back to the assembly with the suggestion that the amendments be incorporated.

Following the discussion of the transit measures, Gov. Emmerson signed the Calumet harbor bill.

HUNT RONGETTI;
HELD TO JURY IN
WOMAN'S DEATHOperation Illegal, Two
Doctors Testify.

Dr. Amante Rongetti, once sentenced to the electric chair for murder by abortion, was hunted by deputy sheriffs last night after a coroner's jury ordered him held to the grand jury on a similar charge in connection with the death of another woman. Rongetti failed to appear yesterday at the inquest into the death of Mrs. Elizabeth Palumbo, 235 South 9th avenue, Bellwood, who died in the West End hospital on May 23, two days after he had operated on her.

Rongetti still faces a 1 to 14 year prison sentence for the death of the first woman, Loreta Enders, an unwed mother. He obtained a new trial after he had been sentenced to the chair and under the second conviction the prison term was imposed. Yesterday he immediately appealed to the Illinois Supreme court, which now has the case under consideration. Meanwhile Rongetti has resumed his practice as a physician.

Operation Called Abortion.
At the first hearing before the coroner's jury which is investigating the death of Mrs. Palumbo, Dr. Rongetti testified that he had performed only a necessary operation for appendicitis. Yesterday the jury heard evidence that the death was due to general peritonitis caused by an illegal operation, and that the appendectomy performed was unnecessary.

The inquest was conducted by Coroner Jacob Schewel. Among the witnesses were Dr. R. H. Jaffe, chief pathologist of the Cook county hospital, and Dr. Thomas L. Dwyer, coroner's physician, who examined the dead woman's body.

Dr. Jaffe said his opinion was that the death came from peritonitis following an abortion, and that the appendectomy operation performed was unnecessary. He testified that Mrs. Palumbo had chronic and not acute appendicitis. He said the examination showed that no tumor had been removed.

Doctors' Testimony Agrees.
When first questioned Dr. Rongetti testified that he had removed a tumor as well as an appendix from the woman's body. Dr. Dwyer's testimony corroborated Dr. Jaffe's findings.F. C. Lange, 321 North 7th avenue, Maywood, foreman of the jury, reported the verdict ordering Rongetti held to the grand jury after 30 minutes of deliberation following conclusion of the testimony.
Dr. Rongetti was represented at the inquest by his attorney, William Scott Stewart. Stewart said he was unable to reach Rongetti yesterday.Frankie Can't Love Johnnie
Any More on Chicago Stage

BY KATHLEEN McLAUGHLIN.

Frankie and Johnnie have "taken the rap"—and the count. The lovers of the forty-niner era, whose lurid romance held sway on the stage at the Adelphi in the last few weeks, have left us, presumably for some less particular city. And Chicago, it is intimated, is about to be lined up alongside New York in the matter of having its civic morals purged of smutty theatrical offerings.

Backers of the free and hearty production that was wangled out of the ancient ballad of the same title, "Frankie and Johnnie," kept the pavements hot yesterday in their scurries from judicial to official offices and back again in an effort to beat the police order to close, given on Tuesday night by Commissioner Russell. But it was in vain.

Fervid Lovers Sing Swan Song.
The best they managed to do was to obtain permission to present their matinee performance yesterday, which proved to be the production's swan song in this city.

Applying for an injunction under which they hoped to operate, pending a trial of the merits of the show, Ralph Ketterling, western representative of A. H. Woods, owner of the Adelphi, and his associates were informed by Judge Harry M. Fisher

that they would have to notify the officials named in the petition as defendants, including the mayor, the commissioner of police, and other officials. They scurried away to comply with the requirements.

Russell Dead to Entravement.
Assistant Corporation Counsel James W. Green, however, informed them he would not be moved by pleas as to the sanctity of the story or the historical value thereof, having plenty of evidence to convince him it was an immoral play. Offers were then made by the management to alter the play to suit the police. Then Commissioner Russell turned adamant. He asserted nothing would do but to take the show off completely.

At 5 o'clock last night, after a series of conferences with attorneys, Ketterling called Commissioner Russell and informed him he would drop the case and withdraw the production. Expectant crowds besieged the lobby of the theater last night to view the show. But Frankie and Johnnie were gone.

LIQUOR SENTENCE AFFIRMED.
Gordon, Ind., June 12.—[Special.]—Lobbying bills of Michigan, arrested in 1928 when a large underground still was found on a farm near here, must pay a \$200 fine and serve six months on the state farm, under an Elliott Circuit court verdict affirmed by the State Supreme court.

CONGRESS QUIZ INTO VIRKULA KILLING LIKELY

Full Inquiry Is Asked by
Citizens.

BY ORVILLE DWYER.

(Picture on back page.)

[Chicago Tribune Press Service.]
International Falls, Minn., June 12.—[Special.]—Indications were seen here today that Representative William A. Pittenger of the eighth Minnesota district, will demand a congressional investigation into the killing of Henry Virkula by a federal customs patrolman.

Local officials point such an inquiry and it is understood they have transmitted their desire to the congressmen. They point out that the government has defeated every move by the states to do anything about cold blooded killings of citizens on mere suspicion by dry enforcers and it is time for congress to act.

They believe a congressional inquiry would undoubtedly fix the official responsibility for the series of prohibition killings. It would unquestionably establish, they say, who issued the order that placed dry law enforcers along the Canadian border armed with dangerous sawed-off shot guns and with apparent liberty to go as far as they like with them.

Congressman Asks Facts.

Congressman Pittenger has indicated how he will act by two telegrams to Sheriff Hugh Reidy of Koochiching county. The sheriff received the first one Monday, he revealed this afternoon. It read:

"Wire me, collect, statement of facts connected with the killing of Henry Virkula by federal agents."

The sheriff promptly sent a complete report of the killing to the congressman, including the statement of Henry A. Roberts, special agent for the treasury department that it was "wholly unjustified and unwarranted."

Today the sheriff got a second request from Washington and this time the congressman wired:

"Please endeavor to obtain copies of transcript of testimony taken at the coroner's inquest into the Virkula killing, also all other investigations, and obtain information as to the financial condition of Virkula's family."

Family Left Dependent.

Sheriff Reidy said he would tell Congressman Pittenger that Virkula's wife, Anna, and his daughters, Alice, 10, and Bernice, 8, are left in straitened circumstances and dependent upon relatives.

Although all kinds of activity was seen around the customs and immigration offices at the head of the international bridge in this border town, the government continued to cloak everything with mystery and tight-lipped silence.

Oscar Dahly, collector of customs at the port of Duluth, highest officers of the customs patrolmen in this district, made a complete inquiry into the killing today. He interviewed Patrolman Emmett White, who did the shooting, at the county jail, where he

SHIP SETS SAIL WITH HER BAGGAGE ABOARD; SHE STROLLED TOO FAR

New York, June 12.—[Special.]—While Mrs. Lucille Ropers of Chicago was strolling along the pier tonight, the liner Mauretania pulled away from the dock and sailed with her baggage, ticket and passport in her cabin.

When the Chicago woman realized too late that she had continued her stroll along the pier among the crowd much too long, and that the ship had sailed without her, she reported to Cunard officials.

They quieted her, promising to wire the purser on the Mauretania to unload her baggage at Cherbourg and hold it there until Mrs. Ropers catches up with it. She will be sent over on the Tuscania on Saturday.

is charged with manslaughter. He talked to Patrolman Emil Servino, who was with White and yelled, "Let him have it!" when White killed Virkula. He conferred with Sheriff Reidy and looked long and earnestly upon Virkula's automobile and the marks of the 26 slugs that were rained into it.

Has Nothing to Say.

When he got through, Mr. Dahly said the treasury department would not permit him to make any statements.

"There is only one place where they are allowed to talk—if they desire to—and that is in the treasury department at Washington," he said.

"Who would do the official talking for the department in this matter?" he was asked.

"Why, Seymour Lowman, I pre-

sume. I made this inquiry so I could report to Mr. Lowman, who is my superior."

"Mr. Dahly, do you know who is behind the order for the men to carry and shoot at cars with these short barreled shotguns?"

"No," was the reply. "But, of course, that order must have come from Washington."

It was then explained to the collector that tests made yesterday by Special Agent Roberts proved the burst of nine dum-dum bullets with each discharge of the shotguns could not be controlled.

One treasury agent saw the weapon that killed Virkula was the same type that was protested by Germany during the world war as inhumane and contrary to the law of nations.

Spreads Bullets Like Fan.

The tests showed that a shot fired from the same gun that killed Virkula at twenty feet spread its nine bullets out in a space eight inches in diameter; that a shot fired at 40 feet showed a 20 inch spread, and that a shot fired at sixty feet spread the nine bullets over a space of thirty inches.

"Did you know that, Mr. Dahly?" the customs official, was asked.

"No, I did not," he said.

Virkula's automobile, says State's Attorney David Huriburt, is mute evidence that it will be hard for the government to get away from. How, he asks, can the government explain away the fact that not one of the 26 slugs that struck it hit lower than eight inches above the tops of the tires. White's defense is that he aimed at the tires to disable the car.

Judge J. H. Brown of the city court, at Huriburt's demand, has impounded that automobile and it now stands under heavy padlock and key in Sheriff Reidy's garage. Huriburt says he's going to move it bodily into the courtroom where his case is tried.

U. S. DRY LAW SENDS MOTHER OF 16 TO CELL AS A LIQUOR PURVEYOR

Fort Smith, Ark., June 12.—[AP.]—Mrs. Joe Post, 56, mother of sixteen children, twelve of whom are living, tonight faced a year and six months sentence in federal prison and a \$100 fine, as the result of pleading guilty to a liquor selling charge.

Federal court officials tonight said they had no record of previous liquor violations against Mrs. Post, who was sentenced by Judge Frank A. Youmans to serve the year and a half term in federal industrial prison at Alderson, W. Va.

Defense counsel made a plea for leniency for Mrs. Post, as the mother of a large family.

It was said that she accepted full responsibility in the case that her husband might care for the children still living.

DIES OF INJURY FROM FALL.

Anton Nicoloff, 56 years old, 320 West Adams street, a laborer, died in the county hospital last night of a skull fracture suffered on Monday when he fell in his home.

"Haunted House" to Find Haven in Lake Forest

Lake Forest's "haunted house," a restless wanderer through the curved highways of the suburb, is at last to find a haven. Movers, towing the structure to a new site last week, were halted because trees along the way were being damaged. Yesterday

after a conference of town officials, a route was plotted for the house which would avoid striking any trees. The house has been deserted since Norman Hewitt was murdered there three years ago by a nurse who then killed herself.

HOLD OFFERS FOR SELLING CHARGE.

Western police last night arrested five crooks, on charges of Michael Aquino, 19 years old, that he had paid them \$400 for charms to treat his rheumatism.

ST. PAUL

World-wide
fame in a
field where
distinction
is difficult
of
attainment

The easiest and quickest road to distinction leads through occupation which is remote from the ordinary.

☆☆☆

By intense concentration upon some subject to which few persons give more than casual thought, a little learning and a little skill may be given a luster which in more usual occupations is reserved for talent of an order so high as almost to touch genius.

☆☆☆

But when a man takes up some interest with which mankind, generally, is in daily familiar contact, and attains honest pre-eminence therein, his achievement is of itself a sign of a rare endowment.

☆☆☆

The Henrici organization has attained national and even world-wide distinction in one of the most prosaic and the most ancient of all lines of industry.

☆☆☆

Such achievement comes only of that sort of pride which leads workers to set for themselves standards that almost seem unnecessarily strict. In that sort of standard is your assurance that should you take luncheon at Henrici's today you will experience a degree of satisfaction which you have rarely if ever known elsewhere. Why not Henrici's today?

LIQUOR RUNNERS UNITE TO FIGHT HUGE DRY NAVY

Rum Fleet Prepares to Win by Maneuvers.

Detroit, Mich., June 12.—[Special.]—The United States government and the rum-runners are to fight it out on this line if it takes all summer, or all the summers and winters there are left.

Seymour Lowman, assistant secretary of the treasury in charge of prohibition, and customs, has been here to direct in person the federal effort to sweep back the rum flood. He ordered a vast number of new boats to patrol the border waters and hundreds of customs patrol men and coast guard men will reinforce the dry navy. In reply, all the "big shots" of the rum runners, from Mackinac to Buffalo, met in secret at Ecorse today to form a co-operative general headquarters staff. They agreed on a policy of one-for-all and all-for-one. They realize Mr. Lowman's plan may result in the loss of more vessels, men and cargoes, but they, like other business men of import, rely on the law of supply and demand. They believe the period, the difficulty of delivery and the hazard of loss, will be recompensed by an increased pecuniary reward for success.

Shuttle System to Be Used.
The rum chiefs worked out plans for a shuttle system, whereby the boats will be diverted to Lake Erie or Lake Huron whenever the coast guard border patrol, and other dry units are concentrated on the Detroit river. Headquarters have been established at strategic points along the border, and these points will be held in readiness to go into operation whenever the water waves fronting them are comparatively free from federal interference.

The operators have devised a wide-spread intelligence system whereby the headquarters of the combine are always aware of what stretches of the border are under the heaviest guard and at what point danger from interception is, for the moment, relatively remote.

Better Boats Being Bought.

The combine, like other business men, realize they must invest to profit, as they are purchasing new and better boats. At Ecorse, Trenton, and Wyandott they are scrapping the light speed boats, which would be of little use to combat the heavy seas on Lake Erie and Huron, and are refitting tugs, ranging in length from 60 to 80 feet. Even these larger craft are being almost completely rebuilt. Larger engines are being installed to give them greater speed. Their deckhouses are being taken off so that there will be little of the boat as possible to speed up into the glare of the searchlights carried by the coast guard boats.

Down river rum runners admitted today that liquor smuggling on the Detroit river has been practically at a standstill for the last two or three days. Today and yesterday, they said, two border patrol boats have been

SUED BY EX-KLANSMAN

Indianapolis, Ind., June 12.—[AP]—Senator James E. Watson of Indiana; M. Bert Thurman, Republican national committeeman from Indiana, and six other Indiana Republicans are named defendants in a \$50,000 suit for damages filed in federal court here by William M. Rogers, former Ku Klux klansman.

Rogers charges conspiracy against his reputation in connection with the alleged forgery of an affidavit representing him as admitting that his testimony before a senate investigation committee, that Senator Watson had shown him a klan passport, was false. A federal grand jury investigation of Rogers for perjury, based on the affidavit, resulted in the return of a "no bill."

Other defendants named in the suit include Earl Klink, former klansman alleged to have forged the affidavit; Albert S. Ward, former United States district attorney; Judge James A. Collins of Marion county Criminal court, and George V. Coffin, seventh district Republican chairman.

stationed in the Ecorse channel which swings closely into the American shore. These boats, they declare, have stopped every boat of every kind. The runners said smuggling has been going on as before on the upper reaches of Lake St. Clair and across the St. Clair river.

Augment Dry Guards.
The dry forces here were augmented by 200 agents and inspectors today, it was learned through customs and prohibition officials.

More than fifty dry agents arrived in Detroit yesterday, and half of this number was assigned to the customs border patrol. The others will work with the prohibition forces.

The additional men came here from various parts of the United States to carry out the program prepared at the meeting of dry chiefs. Mr. Lowman, returning to Washington, said, that if these units, cooperating with the coast guard service in this district, fail to remedy the situation, United States marines would be sent to Detroit to assist in drying up this district.

E. R. Norwood, the new dry chief, known as the coordinator of the dry forces here, is meeting the new men as they arrive.

AURORA DRY RAID DEFENDANT'S FACE DOUBLE JEOPARDY

State's Attorney George D. Carberry of Kane county, whose dry raiders killed Mrs. Lillian De King in her home at Aurora, yesterday invoked the state law to put fifteen persons in double jeopardy for alleged liquor offenses.

Last week the dry prosecutor led federal prohibition agents in a series of raids in Aurora. Eleven places were visited, and in three of them, where it was claimed liquor was found, the furniture was carted away. The prisoners were brought to Chicago to stand trial in the federal court.

Yesterday Carberry filed information against the same persons in the Kane County court. He announced that similar action will be taken against twenty other places in Aurora next week.

"These men and women violated the state law as well as the federal law," Carberry said. "In all the cases I am going to ask either heavy fines or jail sentences."

FORMER PROHIBITION OFFICER IS AMBUSHED AND SLAIN IN DIXIE

Huntsville, Ala., June 12.—[AP]—A search was being made tonight for the slayers of R. Hugh Craft, former prohibition enforcement agent and Madison county deputy sheriff, who was shot from ambush as he drove from his farm near Gurley to Huntsville early today.

Craft's body was found slumped over the steering wheel of his car in a thickly wooded section. The left side of his head had been almost torn away by a charge of bird shot from a shotgun. In addition, a pistol bullet had been fired into his forehead between the eyes at close range.

Footprints of two persons were found in the soft ground at the spot from which the shotgun is believed to have been fired. Bloodhounds traced the tracks from Craft's automobile, which wrecked against a tree trunk, to a roadway across a mountain. The officers believed the slayers entered an automobile where the trail was lost.

During the several years he served as a prohibition agent, and until his retirement a few weeks ago from the country forces, Craft waged an active campaign against moonshiners. Sheriff Riddick said Craft was known to have many enemies among liquor dealers.

Coolidge Attends Firm Meetings and Gets \$70

New York, June 12.—[Special.]—Calvin Coolidge today presided as chairman of a meeting of the agency committee of the New York Life Insurance company and then attended the regular directors' meeting, receiving \$70 in gold for his day's work.

LATEST DETROIT DRY LAW TARGET DIES OF WOUND

Companion Admits They Had Liquor Load.

Detroit, Mich., June 12.—[Special.]—State Prosecutor James E. Chenot this evening absolved Customs Border Patrol Inspector James Cox of blame in connection with the killing of Archibald Eugster, 21, when Frank Cooper, Eugster's companion on the night of the shooting, admitted that he, Eugster, and two other men were running thirty-five cases of liquor across the river.

Cooper's first story, which he repudiated in his confession to Prosecutor Chenot, had it that the boys were fishing when they ran into a customs rum guard ambush and were fired upon.

Dies Protesting Innocence.

Eugster's dying statement to authorities was that he knew nothing of the rum running game. The youth died shortly before noon today.

Cooper's statement, given to authorities after being examined for forty-eight hours, follows:

"Four of us went over to Canada Monday night and purchased thirty-five cases of liquor, paying in cash for it. We ran it across the river and

were pulling into the mouth of the river Rouge when the customs boat gave chase.

"Three Liquor Into River."
"Eugster threw ten cases of liquor into the path of the guard boat and they fired ten shots over our heads."

"We were losing ground in the chase when we struck a log under the bridge near the mouth of the river. The boat started to leak, so we beached it. We then started along the shore afoot and ran into Cox. It was then that Eugster was shot, after Cox had warned us to halt."

"After Eugster fell Cox shouted to us to stop or he would shoot us, too."

Doctors Prescribe Sleepy Water in the Treatment of Kidney Trouble

Sleepy Water is nature's radioactive mineral water of high therapeutic value from Chewankia Springs, adjoining the government reservation at Hot Springs, Ark. It is beneficial in the treatment of Diabetes, Bright's Disease, Rheumatism, Hardening of the Arteries, High Blood Pressure, Neuritis and Stomach Troubles.

Sleepy Water may be used freely with excellent results to retain as well as regain health. Not a physician. Drink it more freely than you drink city water. Palatable, wholesome Hot Springs water; nothing added to or taken from it. The beneficial effects include an invigorating sense of well-being. Ask for booklet. Order a case today. Phone State 9680 (open until 8 p. m.) or write Sleepy Water Co., 11 S. La Salle St., Chicago. Ask for booklet.

BOXING LESSONS FAIL TO AID HER, WIFE SAYS; SUES

Lost All 3 Bouts, Avers
Mrs. Chas. Ducharme.

Mrs. Amelia Ducharme, 1861 East 7th street, yesterday filed a divorce suit in the Superior court against Charles Ducharme, vice president of the Frigid Fluid company, 2425 West Van Buren street. Mrs. Ducharme charges cruelty and says she took boxing lessons in a vain effort to defend herself from her husband's fists.

The Ducharmes were married at Waukegan on Nov. 8, 1924. On his proposal she agreed that theirs was to be a companionate marriage, the bit says. Under the agreement he established her in the home and gave her a monthly allowance which she deemed sufficient. They were to meet but once a month, the wife says.

Opposed to Companionate Idea.
Mrs. Ducharme asserts that she did not favor his proposal of monthly meetings, but acquiesced when he threatened to break their engagement. For several months the plan worked smoothly enough, according to the bit. Ducharme would notify her what evening would be convenient to him and ask her to prepare a good meal. During the intervals she was to stay at home and listen to the radio, she says.

After almost a year Ducharme changed his tactics, the suit declares. He would appear at the home without first giving warning and berate his wife for her failure to have a meal ready. Mrs. Ducharme says. She charges that during such outbursts of temper he would beat her. When she protested against the companionate marriage plan and mentioned the fact that the radio was her sole comfort during his absence, he took the radio from the home, according to the bill.

Losses 3 Bouts; Goes Out.

Mrs. Ducharme says she took boxing lessons so that she might be able to defend herself. For a month she trained faithfully, awaiting her husband's visit. Although she was better able to defend herself, Ducharme won the bout with a knockout, she charges. Filled with her improvement, she trained the second month and again lost. After a third defeat on June 7 she left the home, the bill says.

Mrs. Ducharme pleads her husband's income at \$10,000 a year and asks alimony. She is represented by Attorney Victor Frohlich.

Woodtick Bite Received
at Funeral Kills Iowan

La Clair, Ia., June 12.—(P)—Lee Hamilton, 67, died yesterday from effects of a woodtick bite received while attending the funeral of his brother at Rifle, Colo., recently.

HUNT GARAGE ASSN. OFFICIAL FOR DEATH QUIZ

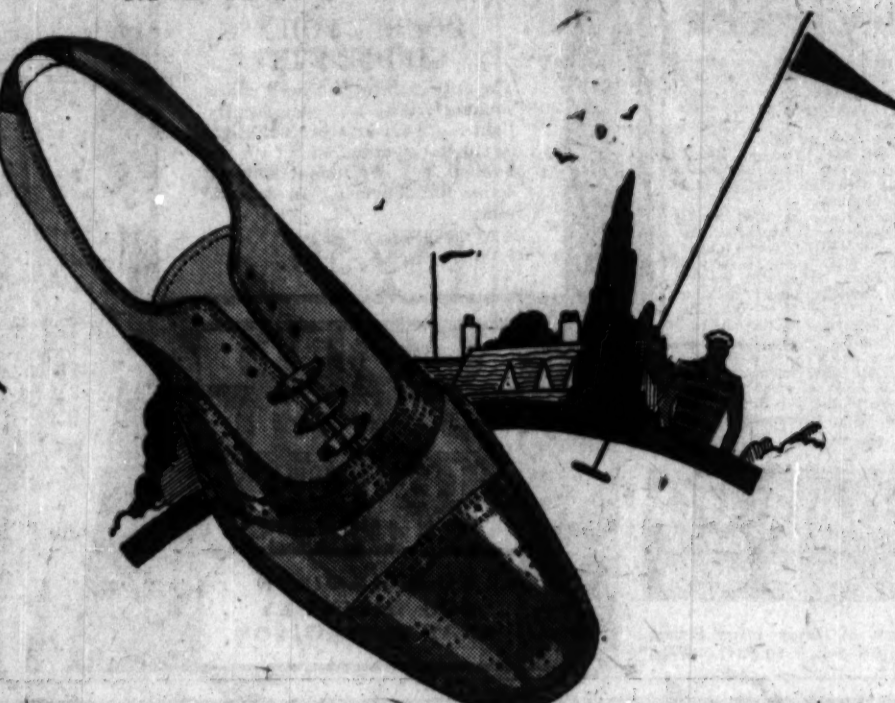

The police were searching last night for Ray O'Laughlin, a division superintendent of the Mid-West Garage Owners' association, who they believe is the owner of the automobile from which the shots were fired which early yesterday morning killed

Benjamin Pfuger, 30 years old, a teamster, who was also treasurer of a church carpool.
Pfufer was shot and killed while with his sweetheart, Mrs. Mary Petty, 35 years old, near the latter's home at 5041 South Kennebec avenue. The testimony at the inquest yesterday, which was continued until June 23, developed the fact that the shooting was probably the result of a quarrel over Mrs. Petty.

Witnesses obtained the number of a hotel over Mrs. Petty.
The car and police discovered it belonged to the garage association, which in the past has figured in many racketeering charges.
Robert Bender, president of the association, and Margaret Barker, the secretary, said that O'Laughlin was the possessor of the car bearing that license. They said he failed to report to them yesterday.

RENT 7 KILLES; PUT OUT FIRE.

HOW TO INCREASE THE TRADE-IN VALUE OF YOUR CAR

Alemite High Pressure Lubricating Systems together with Alemite Lubricants especially designed for the most efficient results in these systems, lengthen car life and largely eliminate 80% of all repair bills. Car manufacturers recognize this—so more than 95% of today's cars are equipped with Alemite.

A properly lubricated automobile means a long-lived automobile—one that naturally commands a higher trade-in value.

LOOK FOR THE YELLOW SIGN
Every Dealer Displaying This Sign Has These Two Special Lubricants for Your Car

1—Alemite Chassis Lubricant—This lubricant is used in the Alemite fittings and is especially designed to stand the high pressure which these systems produce.

2—Alemite Gear Lubricant—For transmissions and differentials. Specially made according to specifications of your car manufacturer.

3—Alemite Universal Joint Lubricant—Will not throw away from universal joints at high speeds.

4—Alemite Wheel Bearing Lubricant—Will lubricate wheel bearings correctly and is heavy enough so that it will not throw into brake assembly and cause brake trouble.

So Alemite now offers Recorded Alemite Service—a certified record of all the lubrication services performed on your car. A record that "pedigrees" it and will increase the re-sale value of your car 10% or more.

The dealers whose names appear in this advertisement offer genuine Alemite-ing with genuine Alemite Lubricants. Ask them about the new R. A. S. Recorded Alemite Service.

REOPEN DOG RACE TRACKS AS JUDGE PONDER'S RAIDS

Owners Ask Swanson Cited for Writ Violation.

Greyhounds were permitted to resume their pursuit of decoy rabbits last night pending decision by Judge Harry Fisher on whether State's Attorney John A. Swanson was in contempt of court for raiding three dog-racing tracks Tuesday night. A further hearing on that issue is set for tomorrow morning.

Attorney Lewis P. Jacobson, representing the Hawthorne and Homewood tracks, won for the dogs the privilege of a least two more nights of racing. The permission to race was not given officially for Jacobson was asking that State's Attorney Swanson be taken into custody, but by a tentative arrangement the dog question was sidetracked while the lawyers are preparing arguments and citations regarding Mr. Swanson's right to order the raids.

Postpone Employers' Trial.
One hundred and fifty employees of the three dog tracks had been arrested and their trial, too, was postponed until after Judge Fisher makes his ruling. A hearing before Master in Chancery Max Korshak concerning the legality of the dog racing was also suspended until after Friday.

Attorney Jacobson, in behalf of the track promoters, was on the job bright and early yesterday with a petition asking that Mr. Swanson, Police Lieut. William Haul, Sheriff John E. Traeger and others who participated in Tuesday night's raids be cited for violation of an injunction issued by Judge Fisher. Notice was served upon them to appear in Judge Fisher's court.

First Assistant State's Attorney John E. Northrup and Assistant State's Attorney Charles Dougherty had a novel defense for Swanson.

Claims Writ Not Violated.

"The injunction specifically prohibited Robert E. Crowe and Charles Graydon from interfering with the dog racing," Mr. Northrup informed the court. "It was aimed at them as individuals and not at their official positions and therefore Mr. Swanson, as the successor of Robert E. Crowe, and Mr. Traeger, as successor of Sheriff Graydon, did not violate the injunction because they were not enjoined."

"The injunction is effective against any one who has knowledge of it," Mr. Jacobson asserted, "and specifically against Swanson and Traeger because they assumed the burdens of the offices of Crowe and Graydon. That Mr. Swanson has knowledge of the injunction is evident from the fact that he sent an assistant into the court to move that the injunction be dissolved."

Judge Raids Delay in Action.

"There has been no disposition on the part of either side to get a final decision in this matter," Judge Fisher stated. "There has been ample time to have had a ruling from the Supreme court on the legality of this form of racing. You may have the opportunity of presenting your arguments Friday and in the meantime the status quo ought to be maintained."

"What about the \$600 they took from our till and the books and records they seized?" Attorney Jacobson asked. "They held up 2,000 people at the points of guns, in a deliberate violation of the injunction of court. They had 200 Chicago policemen out there raiding instead of protecting the people of Chicago. This is anarchy."

"What about the Fairview track, which is being operated by a receiver appointed by this court?" asked Attorney Denis J. O'Toole.

Judge Fisher asked what Judge appointed the receiver and was told it was Judge Otto Kerners. He then stated that the court appointed the receiver to conduct "only the lawful business" of the Fairview club. He refused at that time to make any special ruling regarding the court-operated dog track.

TWO VICE PRESIDENTS ASSIGNED TO CHICAGO BY PENNSY RAILROAD

An announced desire to give the railroad needs of Chicago more attention in the future accompanied a statement issued last night by the Pennsylvania railroad tailoring of additions to the official staff of the railroad in this city.

T. B. HAMILTON, (Second Photo.)

At a meeting in Philadelphia, the board of directors voted to appoint two executives of vice president rank to represent the railroad in Chicago.

The move was termed one of "unusual significance" and was believed to have been the result of complaints from Chicagoans that this city is slighted by the railroad because of inadequate representation.

T. B. Hamilton, now vice president in charge of the western region, was promoted to a new post with the title of vice-president-Chicago. He will be assigned to the direction of matters of general interest and policy in the Chicago district. To succeed Mr. Hamilton on the board announced the promotion of H. E. Newcomet, now general manager at Chicago. W. C. Higginbotham will succeed Mr. Newcomet.

HUNT BANDITS WHO TOOK \$4,000 FROM FRED MANN

(Picture on back page.)

Police last night were trying to pick up the trail of two armed robbers, one of whom wore a mask, who early in the day held up and robbed Fred Mann, proprietor of the former Rainbow Gardens, at Lawrence avenue and Clark street, of jewelry and money totaling nearly \$4,000.

The robbery occurred in Mr. Mann's office at the gardens, which have been used as a jai alai court and an exposition hall since being closed as a night club for prohibition violations.

Mr. Mann had just arrived at his office at 9 a. m. when the bandits, each carrying a drawn revolver, pushed their way in.

After relieving their victim of a diamond ring valued at \$3,000, a diamond pin valued at \$500 and \$165 in cash, the robbers demanded the combination of the safe. "I don't know the combination, and besides the safe's empty," Mann replied. The phone rang at that moment and the bandits hastily bound Mann's hands and feet with a piece of rope and fled.

TRAINING CAMPS BUILDERS OF MEN, JUDAH DECLARES

Col. Noble Brandon Judah, who has just returned from two years' service as ambassador to Cuba, yesterday was riding his favorite hobby. He was boosting the citizens' military training camps.

The colonel, commanding officer of the 224th field artillery and former civilian aid to the secretary of war for the Sixth corps area, dropped his pressing personal business attendant upon his return to private law practice and surveyed the outlook for the 1925 C. M. T. C.

Builds Boys Into Men.

"The program outlined for this summer is one that will build boys into manhood," said Col. Judah. "The schedule for the mornings call for military drill, breeding respect for authority and self-respect. The afternoons are devoted to athletics and the evenings to entertainments of a wholesome character. It is a wonderful opportunity offered to the youth of

America by the United States government. Men between the ages of 17 and 24 are eligible to the camps providing they are of good health and reputation. The course covers four weeks. The colonel found that, more than ever before, employers are giving two extra weeks' vacation with full pay providing the employee makes a good record at the military camps.

Quotas Nearly Filled.

With the encampments still weeks away, enlistments are already approaching the full quotas. From Cook county, 524 have registered and the quota is 544. Illinois, with an enrollment of 1,904, has already surpassed the 1924 total of 1,891. Wisconsin has a similar record with 1,578 enlistments as compared with last year's 1,519. Michigan had 1,413 in the camps last year and has 1,371 listed so far this year.

Dates for the camps in the Sixth corps area are as follows: Fort Sherman, Ill., July 18 to Aug. 16; Jefferson Barracks, Mo., July 8 to Aug. 6; Camp Curtin, Mich., July 19 to Aug. 17; Camp McCoy, Wis., July 26 to Aug. 23; Fort Brady, Mich., July 19 to Aug. 17; and Fort Snelling, Minn., Aug. 1 to 30.

FALLS UNDER TRAIN; KILLED.

When he attempted to board a moving train, Lela Forest last evening, Forest, 45 years old, 1818 South 56th avenue, Cicero, a tailor, fell beneath the wheels and was fatally injured. He was the father of five children.

SEEK \$450,000 OF COUNCIL TO EXPAND AIRPORT

A. of C. Heads Civic
Groups in Drive.

BY ROBERT WOOD.

Immediate appropriation by the city council of \$450,000 with which to double the size of the Municipal airport is the aim of a campaign launched yesterday by leading civic organizations headed by the Association of Commerce.

In announcing the campaign, George A. Foster, chairman of the Association of Commerce aviation committee, declared that the present conditions at the Municipal airport are not only hampering the proper development of Chicago as the country's logical aviation center, but are imperiling the safety of flyers and spectators.

Tells Need of Expansion.
"Failure by the city to realize the constantly growing importance of air travel and to provide airports sufficiently adequate not only for future needs but even for present traffic, has placed us in a position that may prove a severe detriment to our logical civic development," Mr. Foster said. "The only answer is an immediate program of airport construction based on a scientific study, that will assure Chicago the same prominent position in the air that it now occupies in railroad circles."

Other cities are aiming at supremacy in the air, Mr. Foster pointed out, and are spending large sums to insure adequate airport facilities. He presented the following partial list of municipal expenditures for airports in the United States:

Baltimore	\$1,500,000
Buffalo	1,000,000
Chicago	500,000
Cleveland	500,000
Columbus	500,000
Detroit	500,000
Newark	1,500,000
New York	2,500,000
Oakland	1,000,000
Portland	1,500,000
San Diego	500,000
San Francisco	1,000,000
St. Paul	250,000
St. Paul	500,000
Chicago	275,000

"Chicago's airport is located on 130 acres of ground of which only a small section is available for planes," Mr. Foster said. "A tract of 160 acres lies to the west of the airport and

AVIATION NOTES

Thirty-four pilots who will fly the planes of the Transcontinental Air transport in the coast-to-coast air-rail service which is to open July 5 are gathered in St. Louis this week for trial flights over the route. As part of the instruction and tests each pilot will be required to fly a tri-motored Ford plane twenty miles "blind."

A loud speaker system has been installed at the Universal hanger at the Municipal airport to enable officials to broadcast directions and announcements over the field. An amplifier has been installed on top of the hanger.

New York, June 12.—On the inaugural westward trip of the Aviation corporation's transcontinental plane-train system on Friday, Mrs. Mabel Whitebrand, retiring assistant attorney general, will carry to the Pacific a bottle of water scooped from the Atlantic and presented to her by Mayor James J. Walker. Mrs. Whitebrand is Washington counsel for the Aviation corporation.

Washington, June 12.—Day air mail express service between Chicago

is also included in the lease held by the city, but at the present time lack of funds has made it impossible to develop this section.

Would Expand Operations.
"If the city council will appropriate \$450,000, the west half would be drained and surfaced in such a way that the whole field would be available during the greater part of the year. More planes could be operated and new services instituted. Facilities could be provided to assure operations even during the most inclement weather."

and Kansas City will be extended to Fort Worth and Dallas, Tex., via Tulsa, Okla., on July 1, giving a complete day time schedule between Texas and Chicago. Announcement of the new service, on the line which had been giving night service between the points, was made by the National Air Transport company after Assistant Postmaster General Glover approved the extension.

[Copyright: 1929: By the New York Times.]
BERLIN, June 12.—Three new world records were claimed yesterday by Chief Pilot Starke of the Heinkel airplane works, who reached an average speed of 222.277 kilometers (about 138.223 miles) over a distance of 1,000 kilometers (about 621 miles) with a useful load of 1,000 kilograms (about 2,200 pounds) in a Heinkel seaplane with a Bavarian motor. With this accomplishment Chief Pilot Starke simultaneously beat the world's speed record for seaplanes over 1,000 kilometers without a useful load now held by America with 219.716 kilometers (about 135.297 miles), and he defeated the world record over the same distance with a 500 kilogram (about 1,100 pounds) useful load, which was established last summer with a speed of 181.447 kilometers (about 112.604 miles) per hour. Starke covered the entire distance in 4 hours 29 minutes 50 seconds.

[Chicago Tribune From Service.]
Washington, D. C., June 12.—[Special.]—Creation of a new air mail network in the south and southwest, with an eventual extension by way of a new southern trans-continental route from Washington to Los Angeles was urged today before the interdepartmental committee on airways by two score senators, congressmen and representatives of cities which seek to be located on the new air mail routes.

AIR ACCIDENTS KILL 384, INJURE 709 DURING 1928

[Chicago Tribune From Service.]
Washington, D. C., June 12.—[Special.]—Aviation accidents in the United States claimed 384 lives in 1928, while 709 persons were injured, according to the first complete poll of aviation fatalities during the year, compiled by F. J. Martel, chief of the

statistical bureau of the aeronautics branch, commerce department, and made public today.
Of those killed, 161 were pilots and 223 passengers, the report showed, while of those injured, 343 were pilots and 366 passengers. The death rate of pilots in aviation accidents is now dropping, Mr. Martel said. The census for 1928 showed 14 per cent deaths among pilots involved in crashes, while the preliminary figures for the first quarter of 1929 showed this rate has dropped to 12 per cent.

BEAUTY CARE for their hands right in the dishpan

Famous beauty shops all over the country—on the basis of their vast experience—find "hands that wash dishes in Lux are as lovely, as white and young-looking, as hands of leisure."

BRIDES tell us... clever wives everywhere say... "We have found a wonderful new beauty secret right in our dishpans!"

As 97 out of every 100 recent brides questioned in 11 big cities explained it—

"In spite of housework, we mean to keep our hands lovely and smooth and white—with Lux in the dishpan."

Women themselves discovered this new, inexpensive way of keeping their hands beautifully cared-for... Washing their fine things in Lux, they noticed how smooth and white their hands looked afterward... then they tried Lux in the dishpan—Lux for all soap and water tasks—for their hands' sake.

And 305 famous beauty shops agree that "Lux gives the hands real beauty care."

Start today giving your hands this exciting, new kind of beauty care! It's so inexpensive, too. Lux for all your dishes costs less than 1¢ a day!

Try Lux FREE

Try this marvelous Lux method for your dishes, at our expense. Just send us your name and address. By return mail you will receive a full size package of Lux free. Write today to Lever Bros. Co., Dept. X-77, Cambridge, Mass.

Boric Acid Good But Not Enough

We recommend Iris, America's Eye Bath, because we know it is such a vast improvement over the time-honored eyewash of plain boric acid.

Iris contains camphor, menthol, witch-hazel, boric acid and pure distilled spring water, all sterilized and put into sealed sterile flasks.

Iris does three definite things for you. It makes your eyes sparkle and look alive and vigorous. It cleanses the corners, the tear ducts and under the upper and lower eyelids. It relieves soreness and inflammation.

If you will try one bottle of Iris we know you will realize its virtues. All of our stores are instructed to refund your money if you are not thoroughly satisfied. So try it and the Iris does complete with handy eyecup. Try Iris today.

ADOPT PROPOSED CHANGE IN BRIDGE CLOSING HOURS

Aldermen Told Factories Lack Harbor Space.

BY OSCAR HEWITT.

The council harbor committee yesterday adopted the report of Ald. W. A. Rowan's subcommittee recommending extension of closed bridge hours. The subcommittee's proposed ordinance would extend the closed period in zone No. 1 a half hour both morning and afternoon; in zone No. 2, on the north branch of the river, a half hour both morning and afternoon; in zone No. 3 on the south branch, 15 minutes in the morning and a half hour in the afternoon; and in zone No. 4, 15 minutes both morning and afternoon.

Zone No. 1 includes all bridges from the lake to Kinzie street on the north branch and to Roosevelt road on the south branch; zone No. 2 includes all bridges between the first zone and Halsted street on both branches. All other bridges are in zone No. 3.

Show Public Inconvenience. The Rowan subcommittee submitted a report, with its ordinance which shows, by graphs and tables, the amount and character of public inconvenience caused by bridge openings. This report is to be printed and submitted to Col. W. C. Weeks, United States engineer in Chicago, when approval of the new bridge hours is requested. The aldermen believe there should be a classification of boats which would give preference to boats carrying commodities and move restrictions placed upon incidental craft, such as pile drivers and derricks.

Ald. John J. Coughlin [1st] pleaded strenuously for an added closed hour at the Michigan avenue bridge between noon and 1 o'clock daily. Temporarily that idea was discarded, but will probably be considered later.

Says Industries Driven Away. Walter Mills, special broker in dock property, told the committee yesterday that two large industries had avoided purchasing sites in Chicago for new factories in the last two months because satisfactory water frontage was not available.

"One of these was the Empire Oil refinery, which bought the 400 acres of the Baldwin Locomotive company across the line in Indiana," said Mr. Mills. "It will probably spend \$10,000,000 to \$15,000,000 in plants and refineries. The other is the Lever Brothers Soap company, which bought 14 acres in North Hammond, where it will spend \$4,000,000 on construction. The taxes which these firms will

COACH COMPANY GETS 62 NEW BUSES WITH AIR FILLED TIRES

Sixty-two new single deck buses, equipped with pneumatic tires, have been put in operation by the Chicago Motor Coach company, it was announced yesterday. It was explained that it may take at least two years before all the buses have air filled tires instead of the solid ones used widely at the present time. A law passed at the session of the legislature just closed requires that the change from hard to soft tires be made within a two year period. Complaints that street pavements were ruined by the present hard tired buses and that they caused vibration that could be felt in homes passed are said to have been responsible for the enactment of the law.

John T. Ritchie, president of the Motor Coach company, said he was not yet ready to disclose the company's plans in reference to the new law. The company has 575 buses in operation and there is said to be some consideration regarding the gradual replacement of all the double deck kind with the one deck soft tire coach. As an experiment pneumatic tires have been put on one of the big buses.

pay will be lost to Chicago. They wanted to locate in Chicago, I know, because I acquired the sites for them."

"Is it true as reported that Lever Brothers wanted a site adjacent to the Lake Calumet harbor and because that harbor has not been developed and they could not get it they went to Indiana?" asked Ald. Rowan.

Urges West Side Development. "Yes, that is true; they would have taken a Lake Calumet site, if it had been available," replied Mr. Mills. He was pleading for a development of sanitary district property west of Western avenue and urged that motors and bridge tenders be placed on the nine spans between Western and Cicero avenues.

"I would be happy to see the bridges opened ten times as often as they are now," said Mr. Mills. "The openings now are inconsequential to what they were twenty-five or thirty years ago. We want lake commerce in Chicago. If you will put motors on the bridges and tenders to operate them west of Western avenue you can readily develop a large area which is now vacant, owned by the sanitary district and which pays no taxes."

"What's the idea of going seven to ten miles up the Chicago river through the loop district and numerous bridges," asked Ald. Sheldon W. Goyer [14th]. "Why not transfer all of that traffic to the Calumet river and Lake Calumet. We will take all of the industries if they ever let us develop Lake Calumet."

DIVER HEADS LAKE COUNTY BAR. Attorney Clarence W. Diver of Waukegan was elected president of the Lake County Bar association at the annual meeting held yesterday in the Circuit court room in Waukegan.

MABEL COREY IS JILTED BY BOURBON PRINCE

PARIS, June 12.—(AP)—Prince Louis of Bourbon, wandering cousin of King Alfonso of Spain, has changed his mind about marrying Mrs. Mabelle Gilman Corey, divorced wife of the Pittsburgh steel magnate, who had agreed to provide him with a home and \$1,000 a month for pocket money. Prince Louis decided he would like to have a better allowance, he wrote to a friend in Paris.

Mrs. Corey has not heard from him in nearly two weeks, since the time originally set for the wedding, but she said this afternoon that the engagement had not been broken, although the wedding had been postponed until autumn.

She blamed the postponement on the

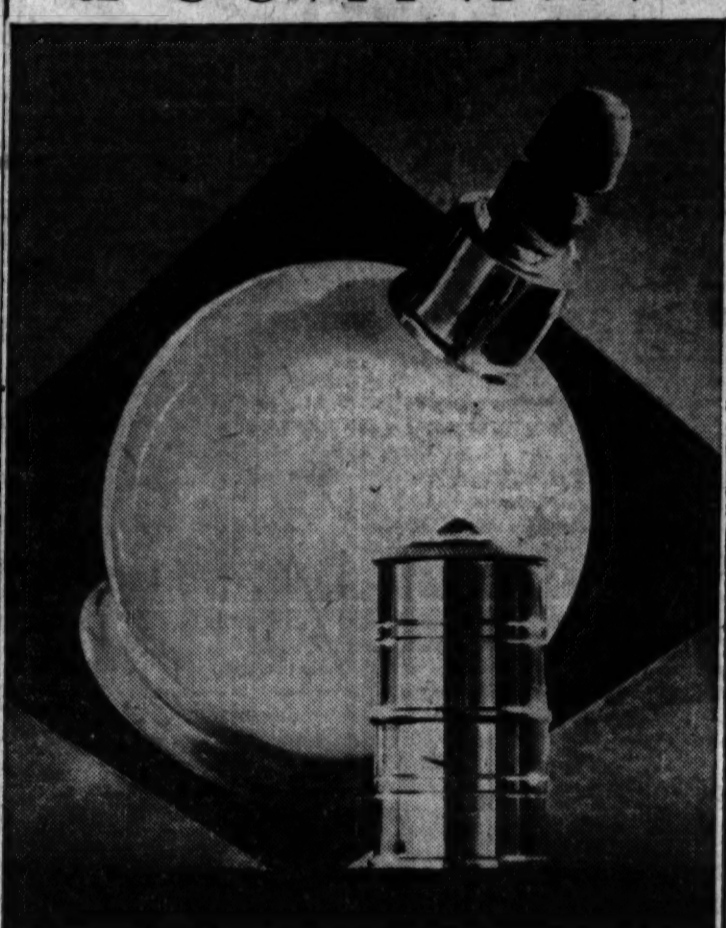

weather, saying it was too hot in the summer at San Remo, Italy, for the Infanta Eulalia, mother of the prince, to attend the ceremony. The Infanta Eulalia is an aunt of King Alfonso. The Infanta Eulalia said the wedding had been "indefinitely postponed" and indicated her doubts that it would ever take place. She said nothing about the weather, except that she had returned to Paris recently from Spain because it had become too warm down there.

The prince is now at San Remo, where his mother bought him a house. Mrs. Corey lives in the Chateau de Villigenis at Verrieres le Buisson, southwest of Paris. Prince Louis would not have been able to live in the chateau in any case, for the French expulsion order bars him from France.

Mrs. Corey has known the erratic prince 20 years. One of the prince's relatives said she declared she wished to marry the prince "in order to save him."

"But now—it seems that Louis doesn't care for redemption," this relative remarked, adding that the prince had written that he was "through with this affair."

THE UNITED STATES IN THE WORLD BANK

Two aspects of the reparations settlement, worked out under the chairmanship of Owen D. Young, concern the United States directly. There is to be a world bank in which the United States will participate; and the United States has waived claim to some \$30,000,000 of the \$200,000,000 still due us for the costs of our army of occupation on the Rhine.

The chief business of the world bank for the present, at least, is stated to be the transfer of German reparations payments to the allies and on behalf of the allies to the United States in payment of their war debts to our treasury. In addition, the bank is to act as a central market for international exchange for the whole world. Further than that, the bank is to act as an international financial stabilizer. It is to "balance international needs for foreign credits." Presumably, then, it is to determine also what those needs are.

Where the bank is to be situated is still to be determined. The United States is the financial center of the world today, but it is far from likely that the bank will be located on this continent. The country has the largest accumulation of capital and also the greatest need for capital of any nation in the world. Whether the world bank will recognize these facts in the location of its central office and in its policies is distinctly open to question. It is far from reassuring that the United States is certain of having only two of the twenty-five directors.

If he is permitted to do so, the governor of the federal reserve bank is to be a director, ex officio, and he is to have the naming of a second American member of the board. If, as seems altogether likely, our government refuses to cooperate officially in this manner, the other directors, representatives of foreign banks and governments, are to name the American members. The alternative is not a comfortable one. Either our government involves American wealth and American credit in an untried venture in international banking or the same result will be achieved with the United States represented by directors chosen by foreigners and responsible to no one in particular.

Inspired statements made during the negotiations likened the new bank in its relations to the central banks of the various countries to the federal reserve board in this country in its relation to the regional reserve banks. The comparison may have been intended to encourage Americans to believe that they are to embark upon a venture which has already been tested. In fact, recent experience with our own reserve system, in which the right of the central board to force regional banks into line on discount policies was demonstrated if not admitted, is far from reassuring. The comparison seems to suggest that the requirements of the United States for credit may be lost sight of in the desire to carry out some policy in the interest of foreign governments and peoples.

The spirit of magnificent self-sacrifice which appears to have animated the American delegates in their acceptance of the world bank extended, also, to the matter of the costs of the army of occupation. Here our delegates obtained official support from the administration at Washington, though congressional approval is still to be obtained. The payment of the costs of the army of occupation presents a curious picture. Of the allied governments which joined in the occupation, only the United States has not been paid off in large part. Great Britain and France have received all but 10 per cent of what was due them. The United States has been paid only 30 per cent of its costs. After deducting the \$30,000,000 which we have agreed to waive we may receive the rest and we may not. The \$30,000,000 which we waived will be paid by Germany, but it will go to the allies in the form of reparations. It comes out of the pockets of the American taxpayers.

On the whole, the recent Paris conference cannot be considered a triumph of American financial diplomacy. The settlement was arrived at partly at the expense of the American people. It is said that the cost is a small one in exchange for world financial stability from which the United States will benefit. Possibly this is the fact, but it is significant that America has not been wholly lacking in property in recent years without an international bank and a reparations settlement to contribute to our well being.

THE FASTEST MAN OF THE AGES.

George Simpson of Ohio State university has broken the world's record in the 100 yard dash. His time at the Sioux field meet last week was 9.24 seconds. The old record was 9.5-10 seconds. The Ohio athlete has achieved progress where

it seems that the ultimate should have been reached centuries ago. New speed records are established in automobiles and airplanes, but man must surrender some of the glory to the increasing perfection of the machine, and the comparative youth of these sports leaves a large margin for achievement. But Simpson was racing with the same apparatus as the Neanderthal and he was competing in a sport as primitive.

Foot racing is a classic event, and it is strange that perfection was not reached by the Greeks, just as architecture was in the Parthenon. If our college athletes had no more imagination than some of our architects they would be running to approximate the Greek ideal of speed instead of running to beat the record for all time. In future track meets it is comforting to know that the boys will be out to beat George Simpson instead of trying to tie Mercury.

JOHN B. FERGUSON AND HIS CAUSE.

John B. Ferguson, who died Tuesday, had given the closing years of his long life to an effort to recover for his city its lost constitutional rights of representation. When he began it Chicago was hardly aware of the injustice it was suffering from the equality government which the rural districts had established by nullification of the constitution.

The increasing disfranchisement of the city voters in their legislative rights seemed an inconsequential thing to them, a theoretical wrong but of no real importance. Mr. Ferguson gradually developed the city's consciousness. His persistence in attacking the injustice with every legal means made the people of Chicago aware that they were being deprived of equality with other people of the state in the making of laws. The country districts had taken away the city's legislative birthright. The foundation of American republicanism government was being destroyed. The evil of taxation without equitable representation was being maintained. The squires had stolen the city's votes. They were taking the city's money.

Mr. Ferguson was not able to find a remedy in law for this nullification of the constitution. His repeated appeals to the courts were in vain. A defect in the American system was thus revealed. There was a wrong without a remedy so long as the rural legislators remained without conscience, without regard for their oaths of office, and without respect for the constitution.

The stout champion of rights is dead and the evil he fought grows, but the city now sees it. It is not theoretical. It is real. It takes the form of unjust taxes and injurious legislation. The city, robbed of its votes, is exploited as if it were an African colony, a rich and subject province, but it now appreciates the efforts of the citizen who tried to protect it.

The appeal to conscience and to the courts has failed, but Mr. Ferguson will have a monument some day in Chicago when, by one means or another, the people of Chicago have recovered their rights as citizens in spite of unscrupulous opposition and profitable defiance of law.

He made Chicagoans conscious of wrong and injury. They will use what political power they still retain to protect themselves. They soon will be able to seize the executive departments of state government. When they have been aroused by further injustice and injury the governor's office will be taken by Chicago votes and retained. The city will seize the veto.

MOTORIST AND PEDESTRIAN IN THE LOOP.

Loop traffic policemen are working under orders to discipline pedestrians as well as motorists. On the red light the loop pedestrian must keep to the sidewalk; on the green light he may go. Crossing the street at any point other than an intersection is prohibited. Within two weeks Commissioner Russell and Traffic Chief Matchett threaten the pedestrian with prosecution and fines for violation of these rules.

This experiment in enforcement of the jaywalking ordinance was undertaken for the purpose of expediting automobile traffic in the loop. The authorities state that the plan was adopted to help the pedestrian as well, but that purpose has not been fulfilled, and in fact the movement of the pedestrians has been considerably obstructed. Therefore, the motorist has been benefited at the expense of the pedestrian. Undoubtedly that is a wrong choice, for the volume and importance of pedestrian movement far exceed that of the automobile in the loop movement. The farmers are complaining that the manufacturers are being given increased protection, and that they themselves are receiving very inadequate compensation for the higher prices that they will have to pay. They are, therefore, reviving their desperate scheme, which in effect is a subsidy on exported wheat, to be financed by the proceeds of the tariff. To the foreign exporter these and other classes of rival interests that will be provoked by the new bill are nothing more than a further example of the evils that ultimately lie in wait for the nation that once sets its foot on the slippery slope of the path leading to protection. Facilis descensus Averno is a saying which finds more justification in tariff history than in that of any other branch of government interference with trade. It is true that the proposals, popularly ascribed to President Hoover, to reorganize the constitution of the tariff board are understood to represent an attempt to "take the tariff out of politics," but it remains equally true that once a country has abandoned free trade fiscal policy and politics become inseparable from each other. Nor can other ingredients be left out of the mixture. For good or for evil, America today ranks among the chief creditor nations of the world. Each raising of her tariff wall increases the difficulty her debtors find of discharging their obligations, and it is true to say that so far this difficulty has mainly been overcome by rebovving from America in the form of private and commercial loans. This process cannot continue indefinitely, and while it lasts merely postpones and aggravates the final day of reckoning. Sooner or later the American people will have to learn the lesson that in the long run Europe can only discharge her debts to her giant creditor if that creditor will help her to export her surplus production.

Editorial of the Day

THE AMERICAN TARIFF.

[The Economist, London.]

Only partial details have so far reached England of the new tariff bill now before congress, and so it is as yet impossible to draw a considered judgment upon the proposals. But to judge from the news so far available, the bill seems likely to become the center of an embittered controversy between the farmers and manufacturers. The farmers are complaining that the manufacturers are being given increased protection, and that they themselves are receiving very inadequate compensation for the higher prices that they will have to pay. They are, therefore, reviving their desperate scheme, which in effect is a subsidy on exported wheat, to be financed by the proceeds of the tariff. To the foreign exporter these and other classes of rival interests that will be provoked by the new bill are nothing more than a further example of the evils that ultimately lie in wait for the nation that once sets its foot on the slippery slope of the path leading to protection. Facilis descensus Averno is a saying which finds more justification in tariff history than in that of any other branch of government interference with trade. It is true that the proposals, popularly ascribed to President Hoover, to reorganize the constitution of the tariff board are understood to represent an attempt to "take the tariff out of politics," but it remains equally true that once a country has abandoned free trade fiscal policy and politics become inseparable from each other. Nor can other ingredients be left out of the mixture. For good or for evil, America today ranks among the chief creditor nations of the world. Each raising of her tariff wall increases the difficulty her debtors find of discharging their obligations, and it is true to say that so far this difficulty has mainly been overcome by rebovving from America in the form of private and commercial loans. This process cannot continue indefinitely, and while it lasts merely postpones and aggravates the final day of reckoning. Sooner or later the American people will have to learn the lesson that in the long run Europe can only discharge her debts to her giant creditor if that creditor will help her to export her surplus production.

How to Keep Well

By Dr. Williams

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, whose return stamped envelope is enclosed. Dr. Williams will not make diagnoses or prescribe for individual disease.

(Copyright, 1929, By The Chicago Tribune.)

TAKING CARE OF BABIES.

THE following practical hints are taken from "Building the Baby" by Carolyn Blarcom. To cure chafing: Clean the chafed areas well. If they are very raw this can be done satisfactorily with cold cream, thus avoiding the action of water on the thin, tender skin. After cleansing and drying expose the chafed area to sunlight and air. The drying effect of air is beneficial. Lotion is even more so.

To make acid milk: Heat whole milk until it begins to boil. Remove the scum or pellicle which forms on the surface. Cool. Add lemon juice or pure lactic acid, drop by drop, until all the time. The result is a thick liquid filled with fine curds. The amount of acid to use is one teaspoon of lactic acid or 1 to 2 teaspoons of lemon juice. Other acids such as orange juice, vinegar or even mineral acids can be substituted for lemon juice or lactic acid. Manufacturers make an acidified milk powder. This is composed of milk acidified above and then evaporated to a powder.

In Miss Van Blarcom's book there is no reference to the addition of lime water to milk. This one time popular addition to the baby's milk has been pretty well abandoned. Acidified milks have replaced the alkaline product. Vegetable juices can be used to replace orange juice in the dietary of a young baby.

To make vegetable juice: Chop the vegetable into small bits with a meat chopper. Add an equal quantity of cold water. Let stand for a few minutes. Crush the vegetables. This can be done with a potato masher. Place the mixture of chopped vegetables and water in a cheesecloth bag. Squeeze out the juice. In using vegetable juice, including tomato juice, the quantity given per day must be twice that of orange juice.

Canned tomato juice can be used instead of juice from fresh tomatoes. The mixture to be fed a baby depend on the size and age of the child and his peculiarities and are best determined by a physician of experience in baby feeding.

Miss Van Blarcom makes the following general suggestions: Start giving the baby orange juice and cod liver oil at one month of age. Thin cereal at 1 month. Yolk of egg and strained vegetable soup at 5 months. Cereals, sweetbaked and vegetable pulp mashed at six months. Liver at 7 months. Beef juice, toast, baked potato mashed at 8 months. Scrambled eggs, beef and crisp bacon at 10 months. Undiluted milk at 11 months. Soft boiled or codded eggs and soup with rice or macaroni at 12 months.

NECESSITY OF SALT. C. R. C. writes: I like my salts with much salt. But many persons tell me it is dangerous. Is it? What, in general, is the function of salt in eating?

The body needs a certain amount of salt. The salt hunger of the southern people during the civil war was the cause of suffering. Wild animals seek out salt licks and travel long distances to reach salt licks. Farmers keep salt accessible in pastures and lots. However, salt is not a food. It is used as a condiment. Salt used in excess as a condiment is somewhat harmful.

GRAVING RELEASONS. Mrs. M. G. writes: I crave lemonade and at present I am taking about five a day. I have been told that this is dangerous to my health. Is this so?

There is no reason to think that lemonade endangers the health. Keep it up. I assume you use them on vegetables, salads and meats and in tea and other proper ways.

MAT BAKER'S DERMATITIS. J. F. writes: I am a baker by trade and I have some kind of sores all over my arms and part of the hands. Water comes out of them. I have been to a doctor and he treated it for a blood disease. Others say it is a skin infection.

This could easily be a case of baker's dermatitis. If so, it is a skin disease. Some physician with experience in industrial skin diseases could settle the question. There are many kinds of it.

FRIEND OF THE PEOPLE

Letters to this department must be signed with name and address of writers.

YOUR ERROR.

Chicago, June 5.—Friend of the People.—At Drake and Lawrence avenues are two vacant lots where rubbish is dumped and buried. Even the street sweeper deposits a full bag of sweeping there, lights a match and goes away. This is dangerous and ill-smelling.

Report is made that proprietors of stores on Lawrence street have been notified to stop burning refuse on vacant property reserved to. Writer is in error in stating that street sweepers are burned.

THOMAS H. BYRNE, Superintendent of Streets.

CHANGES HER MIND.

Chicago, June 5.—Legal Friend of the People.—I would a home on contract recently, the title to go to the buyer in two years when he makes a payment of \$2,000. As I understand it, we have signed an agreement to deliver the title at that time. Now I would like to know if there is any way I can get out of the deal. We gave up possession of the house on May 1 this year.

Mrs. J. B. M. No basis for avoiding the contract appears from your letter. It is possible that if you submitted the entire matter to the facts to a lawyer in a personal interview he might be able to discover grounds for defense.

TRIBUNE LAW DEPARTMENT.

A DOUBLE WEDDING. Chicago, June 10.—Legal Friend of the People.—We have been married recently and wish now to marry publicly. Can it be done? 2. Is it necessary to reveal a secret marriage? 3. Will we have to secure another marriage license?

1. Yes. 2. You should make truthful answers to questions asked by the clergy. 3. Yes. You can have a public ceremony. 4. Yes, unless you can persuade an official to go through the ceremony in reliance on your statements of the fact.

TRIBUNE LAW DEPARTMENT.

PEOPLE who have been keeping their surplus wheat in their city storage strong boxes were observed yesterday feeding it to the chickens. Still you can't just always tell. Anyhow, we're still planting wheat, instead of geraniums, in the window box. Isn't faith a beautiful thing?

MR. HOOVER is sadly learning that landing a snafu and landing two smart old deep water sharks like Hiram Johnson and Bill Borah are two very different things.

R. H. L.

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may.

BEYOND THE ALPS.

"Beyond the Alps lies Italy."
I heard her rapturously state,
Long years ago, Commencement Day—
A sweet girl high school graduate.

"Beyond the Alps"—her bosom swelled
And fervor fired her girlish eyes,
And faith sublime, and fortitude,
And dreams as deep as the skies.

The audience was spellbound, quite,
And teachers fond and schoolmates dear
Applauded proudly to behold
Her started on a brave career;

All but young Joel Henderson,
Who sat quite still and could not see
(He was a silent, stubborn lad)
Beyond the Alps to Italy.

She never went to Italy,
She never left her native town,
But married Joel Henderson,
At length, and meekly settled down.

Today her daughter—one of six—
Will graduate. Her mother's eyes
Are home, she doubts, too, will gaze
Where Italy still lies—and lies.

EOLUS.

And Could We but Forget!

These are the days we are called upon to say farewell to friends who are going to Europe. They are sad days for those who are not going. We sit at the table and the speakers get up one by one and rub it in. That was the way it was at lunch yesterday when we said good-by to Jerome Crowley. Why wasn't it enough for the speakers to say that Jerome was going to ride in his lovely automobile on the highways along the Rhine and into the Black Forest and stop at Nuremberg and Göttingen and Heidelberg and Munich? Why did they have to talk about the beautiful Bavarian beer and the tall steins? And then when they got to speaking of France they had to mention champagne and sauteuse and red wine and white wine and where to go in Paris to get the very best wine. And then they got around to England, and England reminded everybody of stout and porter and Scotch and 'all and 'all and things like that. Some of the guests simply couldn't stand it and they broke down and cried like children. Ah, how true, as the poet has said, "a sorrow's crown of sorrow is remembering happier things."

To Our New Prexie.

Dear Prexykins: You asked me, or you would like to, about the reduction in the price of the 1929 football season tickets. That's due to the adoption of the new conference charge of \$5 for each ticket down scored by the home team. Don't worry about that Iowa scandal hitting us. If any Chicago athletes are drawing money, it's a pension. It certainly isn't an advance against prospective earnings. I read that the university staged a great track meet on Saturday. I paid for a reserved seat, but I had to wait for the Sunday newspapers to find out what happened. There were no programs—no scoreboard—no visibility on the races—no numbers on the sections. I wish you'd do something about this. Of course, I don't blame you for these short-comings I've spoken of; Mr. Stagg has been on the job for thirty-seven years; and you've just found out how to get to Illinois Central station.

DUKE.

PICTURE OF A MIND.

The crowded smile, the ugly word
Are always seen and always heard.

But truth and beauty, sheer and stark,
May well be shrouded in the dark!

SHERIDA STUART.

More About Mr. Mellon

"I am beginning to despair," walls Paul Mellon in a letter from the senate press gallery, "chasing a funny story all over the United States to throttle it, but I want to set you right about your version of the 'Tapping the Wrong Mellon' incident." And he proceeds to set us right. It seems the story grew out of the fact that Andy Mellon once ran all over a hotel lobby borrowing a pencil to take down a telephone message for Paul. And Paul thinks it was pretty swell of one of the world's richest men to do it—and so do we—but what's the what Andy gets for being one of the world's richest? He is worked for thirty dollars a week he'd have a solid gold fountain pen in his pocket and wouldn't have had to run all over the hotel lobby looking for a sawed-off pencil stub to write a note with.

ALONE.

I shall hit the trail alone
Some starless night,
When the winds moon,
And move whirly white—
You and love are not my own,
But foreign delight—
I'll become a ghost you're known
In the dreaming of a night.

DENT CHANLEY.

Lagniappe.

THE WEATHER.—For Chicago and vicinity, June 13: Probably good, water spouts, and smoon, with northeast, southeast, northwest, and southwest winds; also north, south, east, and west winds. Also heavy snow, hail, sleet, with temperature from twenty to forty below zero. Thought for the day: "And what is so rare as a day in June? Then 't' ever come perfect days."

THIS SPECIAL FARM RELIEF congress seems to have passed laws on every subject that could be thought of except one. And that one was farm relief.

WELL, MR. HOOVER, if the senate won't do what you want unless you let them have the debenture thing to play with, maybe you'd better give it to 'em. As Mr. Snookins said about his dog, "Yoww, that's the best trained dog in the world. He reminds the slightest thing I say to him. I'll show you. Here, Rover, go shut the door." Rover growled sullenly and crawled under the bed. "Or, Rover," said Mr. Snookins quickly, "go under the bed; I said be obeyed."

WASHINGTON.—Following an appeal to congress by Attorney General Palmer for an appropriation of \$500,000 to run down the authors of the recent attempts to assassinate public officials it became known that 200 secret agents of the navy intelligence bureau are investigating a gigantic plot to explode bombs in Chicago and more than a score of other large cities on July 4 next.

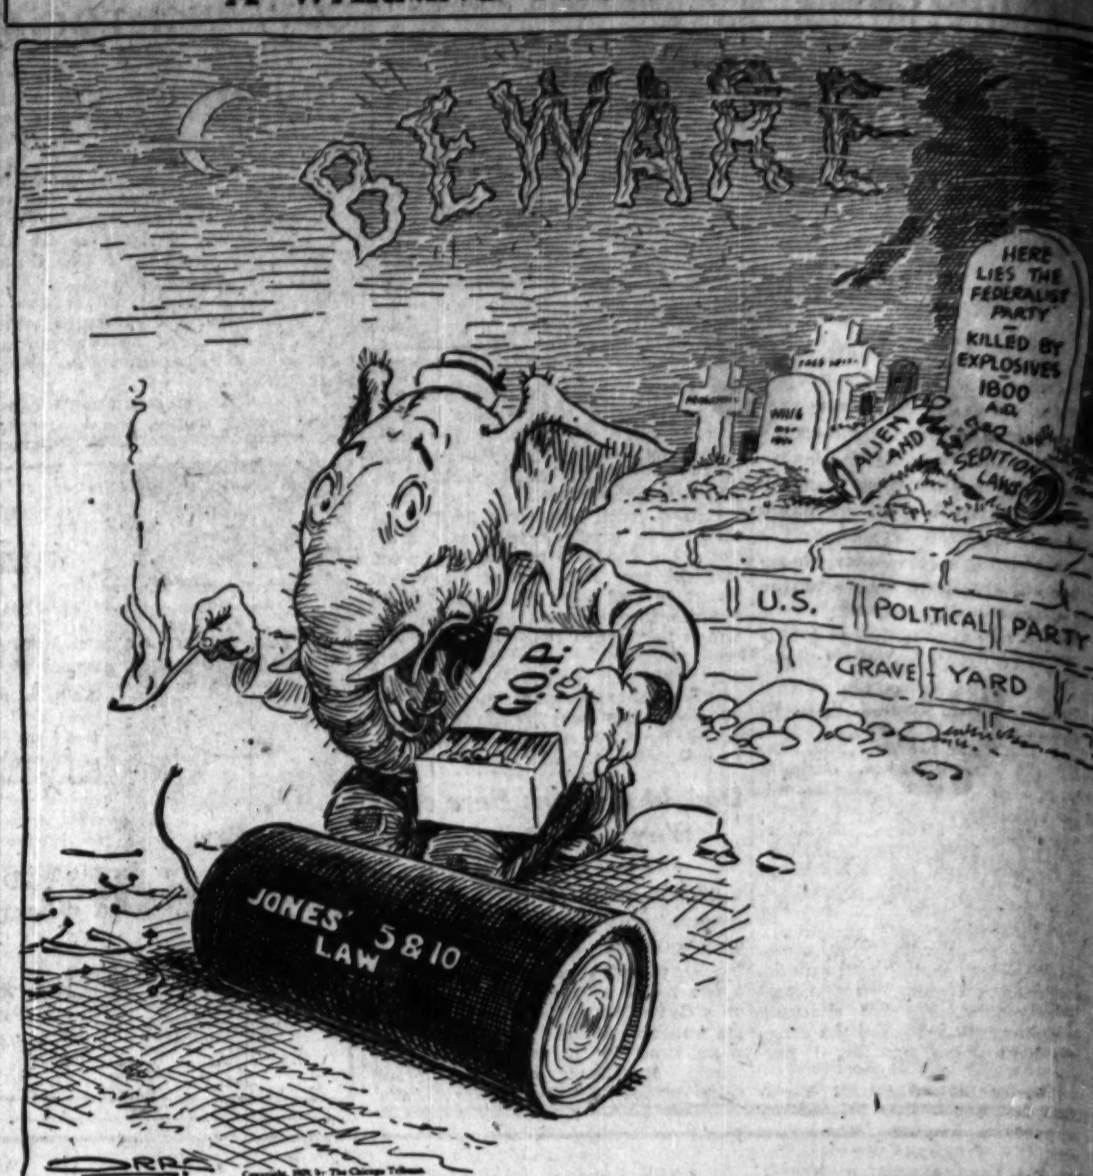

WASHINGTON.—Two Chicago citizens, soldiers, Col. Albert D. Kniskern and Col. Robert P. Lamont, were awarded the distinguished service medal by order of the President for exceptionally meritorious service in connection with the war.

CHICAGO.—Mr. and Mrs. Raymond Roosevelt Kimberly announce the engagement of their daughter, Ruth, to William Howard Badaux Jr., son of Mr. and Mrs. William H. Badaux.

NEW YORK.—Secretary of War Baker, speaking at a luncheon here, said he is anxious to return to private life.

R. H. L.

A WARNING FROM THE PAST

FROM THE TRIBUNE'S COLUMNS

65 YEARS AGO TODAY

JUNE 13, 1864. WASHINGTON.—A dispatch from Gen. Hunter at Staunton, Va., says: "We met enemy at Piedmont last Sunday, killing Jones, their commander, and totally routing them after a battle of ten hours' duration. We have captured 1,500 prisoners, 3,000 stands of arms and a vast quantity of stores." A dispatch from R. R. McCane, operator at Staunton, says that the government and railroad buildings in that town have been burned.

WASHINGTON.—A dispatch from Gen. Grant dated June 11 reports that rebel cavalry made a dash into Wilson's lines near the Jenny house and was driven back. Gen. Wilson sent McIntosh, with part of his brigade after the rebels and a mile west of Bethesda church the federal force came upon Field's division of infantry, but the object of the reconnaissance having been accomplished, McIntosh withdrew.

CINCINNATI.—John Morgan, with about 3,000 rebels, attacked the 16th and 17th Ohio under Gen. Hobson at Cynthiana, Ky., and after a severe fight, compelled Hobson to surrender, on condition that his men should be immediately exchanged. Our loss was about 1,500.

HEADQUARTERS, ARMY OF THE POTOMAC.—The enemy is busily engaged in throwing up fortifications in the vicinity of Sumner's and Bottom's bridges. The affairs of Richmond are visible from these points.

CHICAGO.—It is asserted that Gen. Grant is the owner of \$10,000 worth of stock in the West Division railway of this city, presented to him by friends as an evidence of good will.

30 YEARS AGO TODAY

JUNE 13, 1899. ST. PAUL.—Scores of persons were injured—the number may reach into the hundreds and hundreds of thousands of dollars' worth of property destroyed by a cyclone that swept across the Mississippi valley east and slightly north of the city last night, practically annihilating the village of New Richmond, Wis., and causing great property loss also at Hudson, Wis., Hastings, Minn., and the section between.

New Richmond, a village of 2,000, was reported razed by the storm and soon after was in flames. Latest reports put the loss of life at 250.

WASHINGTON.—Two new cruisers of the navy—the New Orleans and the Albany—which were purchased during the emergency before the war with Spain, have been declared a menace to the lives of the officers and men who will serve on them. They are topheavy.

SINGAPORE.—Admiral D. W. E. landed from the United States cruiser Olympia, his flagship, to pay a visit to the governor of the Straits Settlements, Lieut. Col. Sir C. B. H. Mitchell.

He was received with military honors. On his return to the Olympia he was visited by the governor.

WASHINGTON.—President McKinley was today invited to participate in the laying of the cornerstone of the Chicago public building on Oct. 10 by a delegation of Illinoisans consisting of Ferdinand Peck, Alexander H. Revell, Postmaster Gordon and others. The President accepted.

JOLIET.—Maj. R. W. McClaughry has resigned as warden of the state penitentiary and E. J. Murphy of East St. Louis is to succeed him.

10 YEARS AGO TODAY

JUNE 13, 1919. WASHINGTON.—Following an appeal to congress by Attorney General Palmer for an appropriation of \$500,000 to run down the authors of the recent attempts to assassinate public officials it became known that 200 secret agents of the navy intelligence bureau are investigating a gigantic plot to explode bombs in Chicago and more than a score of other large cities on July 4 next.

WASHINGTON.—Two Chicago citizens, soldiers, Col. Albert D. Kniskern and Col. Robert P. Lamont, were awarded the distinguished service medal by order of the President for exceptionally meritorious service in connection with the war.

CHICAGO.—Mr. and Mrs. Raymond Roosevelt Kimberly announce the engagement of their daughter, Ruth, to William Howard Badaux Jr., son of Mr. and Mrs. William H. Badaux.

NEW YORK.—Secretary of War Baker, speaking at a luncheon here, said he is anxious to return to private life.

PREMATURE FIREWORKS.

Chicago, June 11.—Not long ago I read in your paper that the storekeepers were warned by the police not to sell any fireworks, but, judging by the infernal and continuous shooting that is going on after school hours and all day on Sundays, I conclude that the storekeepers of our district [Lawndale] entirely disregarded the police order.

Why cannot teachers and parents impress upon the children the fact that this senseless shooting is not only dangerous for eyes and limbs, but also not a worthy celebration of such an importance and trust that you will full cognizance of this affair and get it the treatment it rightly deserves.

HOW A CARTON CLEANED THE PARK.

Chicago, June 8.—It might be of interest to

IDAHO OFFICIAL ABDUCTED; LEFT TIED TO TREE

Taken from Auto; 2 Hurt
in Rescue Attempt.

Orofino, Idaho, June 12.—(AP)—W. B. Kinne, Idaho's lieutenant governor, abducted by four automobile bandits this morning and left tied to a tree in the mountains after his car had been wrecked, returned home uninjured tonight.

One of two men who attempted to rescue him from the robbers was in a hospital wounded and the other was leading a large posse of sheriff's officers, Boy Scouts, and citizens in a man hunt.

Tells of Attack.
The lieutenant governor said he was attacked shortly after leaving Lewiston, Idaho, where he stayed last night. "I had driven about a half mile past Arrow, Kinne said, "when four men, all brandishing pistols, halted me. They climbed into the car, forced me to get into the rear compartment and lay down on the floor. While one of them stood over me, another drove off at terrific speed.

"When we neared Orofino and the car was traveling about sixty miles an hour, a fire blew out and the car burst off the road and overturned. None of us was hurt badly in the crash, but the car was wrecked.

Fight Would Be Rescued.
"The man forced me to walk out into a field, and as they did so another car pulled up. Two men, who I learned were W. L. Tribbey of the Idaho Building and Loan association and Paul Kille, a lumber worker, got out of the car. As they walked toward us, the four men turned their guns on them. Both men resisted.

"In the battle that ensued several shots were fired. Kille was shot in the leg and clubbed over the head with a gun until he went down. Tribbey was beaten badly."

The bandits then ordered the three men into Tribbey's car and drove into the mountains near Greer, the lieutenant governor added. In an isolated spot the robbers tied their three victims to a tree, leaving one of their number on guard. They drove off in Tribbey's car.

Threatened with Death.
"After about four hours the men returned," Kinne continued. "They threatened us with death if we moved within four hours and then all left. In about fifteen minutes Tribbey cut himself loose and freed the rest of us and we walked into Greer, only a short distance away."

24 FREED, 47 HELD FOR SLAYING POLICE CHIEF IN STRIKE RIOT

Gastonia, N. C., June 12.—(AP)—The list of prisoners held in connection with the slaying of O. F. Aderholt, Gastonia's chief of police, in a clash with strikers dwindled tonight to 47, when George B. Mason, city solicitor, withdrew warrants charging 24 men with assault with intent to kill, and released them.

His action followed waiving of preliminary hearings in Recorder's court by those held and announcement by T. M. P. Jimison, defense attorney, that he would bring habeas corpus proceedings in Mecklenburg Superior court for the release of all. Thirteen of those still held, including one woman, are charged with murder and the rest with felonious assault.

Mason said he found no reason to hold the prisoners he released after examination of them late today. The prisoners are all strikers from the Lorry mill or outside leaders who came to Gastonia to aid in the strike. Aderholt was fatally wounded last Friday in a clash with strikers when he, with three patrolmen, went to the headquarters of the National Textile Workers' union to investigate reports of fighting and rioting there. He died the next day. The three patrolmen were wounded. Two of them are in hospitals, but are said to be recovering.

leg and clubbed over the head with a gun until he went down. Tribbey was beaten badly."

The bandits then ordered the three men into Tribbey's car and drove into the mountains near Greer, the lieutenant governor added. In an isolated spot the robbers tied their three victims to a tree, leaving one of their number on guard. They drove off in Tribbey's car.

Threatened with Death.
"After about four hours the men returned," Kinne continued. "They threatened us with death if we moved within four hours and then all left. In about fifteen minutes Tribbey cut himself loose and freed the rest of us and we walked into Greer, only a short distance away."

RECEIVER ASKED FOR \$10,000,000 UNION VENTURE

Cleveland, O., June 12.—(Special)—Echoes of the financial thunder that shook the Brotherhood of Locomotive Engineers' bank and its subsidiary enterprises several years ago were heard here today, when two stockholders of the Brotherhood Investment company, filed a petition in federal court for the appointment of a receiver.

The petition was filed by Elmer Smith and Bertha Smith, stockholders of Pittsburgh. The suit asked that the investment company, subsidiary enterprise of the Brotherhood of Locomotive Engineers and a \$10,000,000 corporation, be turned over to a receiver and operated under court supervision.

According to the petition, the company is solvent, but in danger of collapse if not taken over by the court.

because its assets are "frozen" real estate, at Venice, Fla., operated by the B. or L. E. Realty company.

Alvanley Johnston, grand chief engineer of the Brotherhood and the head of the Brotherhood affiliated companies, said he knew nothing of the suit. He said it had nothing to do with the bank.

Efforts to throw the Brotherhood Investment company into a receivership will probably meet with opposition from a strong group of stockholders.

W. H. Keifer, attorney representing a group of stockholders, said that he thought a receivership would be a mistake. The company, he said, being operated at a minimum expense and whatever it would eventually pay out depended on whether the Florida holdings prospered.

The petition of the Smiths admitted that the assets have always been greater than liabilities, and that the company could pay out if properly conserved. The petition does charge that there are no quick assets, nor accruing obligations, which makes it impossible to continue in business.

COLLECTOR BORNED OF SOL.

ESTABLISHED 1837 • STATE and MONROE
PEACOCK'S—A Store for All the People

It keeps your food safe —the temperature is well below 50...always!

For family health...
for appealing menus...
this is vital.

In the General Electric Refrigerator the temperature is kept several degrees below fifty... always! Fifty degrees is accepted by scientists as the "danger point" in the preservation of food. When the temperature rises even a degree or two above that, bacteria multiply, foods become unsafe to eat.

Perhaps you think your own refrigerator is always "cold enough." You cannot be sure unless you actually take your refrigerator's temperature. It is constant cold which is needed.

Note these vital points of superiority
Countless superiorities give the General Electric Refrigerator its outstanding position... an hermetically sealed, dustproof mechanism, mounted on top... an accessible temperature control... a new standard of quiet operation... no oiling... no troublesome machinery... simplified installation... no radio interference... an unqualified two-year service guarantee.

The new all-steel cabinets and the hermetically sealed

mechanism combine to produce what we believe is the finest refrigerator ever made.

Not a dollar for repairs

More than a quarter of a million homes are enjoying the convenience, economy and health-guarding services of the General Electric Refrigerator. And not one of these owners has ever paid a dollar for repairs or service! This is a record in the industry.

The new all-steel General Electric Refrigerators are priced as low as \$215 at the factory. A small payment down places one in your home.

Visit our display rooms—see the new models—you'll agree that they offer the greatest values of all.

Listen in on the General Electric Hour, broadcast every Saturday evening, 8 to 9 Central Daylight Time, over the N. B. C. network of forty-two stations including WLS, Chicago.

THESE BEAUTIFUL NEW WEAVES AND PATTERNS were designed for you — —

For years Palm Beach Cloth has stood for sturdy service; for unmatched coolness and comfort; for tailoring qualities possessed by no other wash fabric of modern times.

But this season the greatest treat and surprise of all are the handsome new patterns designed for you... Patterns and shades never before conceived in a wash fabric—harmonies in weave and tone that express summertime and flatter your personality.

These new effects cannot be found in any other fabric. They are a smart tribute to the summer fashions of 1929.

See them at your clothier's—today!

When buying your Palm Beach suits—remember that some stores go in for the best in tailoring, and some for the least in price. In both cases, you get what you pay for!

PALM BEACH SUITS

MOORS AMBUSH FRENCH PATROL; KILL 13, SEIZE 83

Foreign Legion Goes to the Rescue.

RABAT, Morocco, June 12.—[U.P.] Thirteen French soldiers were killed, 10 were wounded, and 83 were reported missing in an attack by Moroccan rebel detachments upon a French reconnaissance patrol in the Atlas mountains, it became known here today.

The French patrol was attacked by 400 horsemen while executing a series of maneuvers to complete the pacification of the region which has been in an upheaval for several years.

Rescue Forces on the Way.

Strong forces of French troops pushed across the muddy upper plateau towards the Atlas mountains tonight in a desperate effort to rescue 83 officers and soldiers who were carried away by savage horsemen after a battle with troops in the region between El Bord and Ait Yacoub.

The bloody encounter, in which the ambushed patrol fought valiantly against the wild riding raiders from the hills, was the first serious engagement in Morocco since the Rif leader, Abd El Krim surrendered in 1926. The fury with which the attackers swept down on the troops was prompted by a native hatred of Christians and of foreigners.

May Torture Prisoners.

There was little hope of saving the prisoners from torture or death, authorities feared. Every effort is being made, however, to punish the rebels who ambushed the patrol.

The French force had been hindered by heavy rains in the upper plateau regions in inner Morocco and had advanced to a point between El Bord and Ait Yacoub.

Claim Patrol Out of Bounds.

PARIS, June 12.—The French ministry of war today sent an urgent telegram to Lucien Saint, recently appointed resident general in Morocco, demanding the cause for the new rebel outbreaks in southern Morocco, and demanding especially an explanation how two French companies fell into ambush in a region where they had been ordered not to venture. Due to the isolation of the district, as well as bad weather, it is not yet certain whether the fighting is continuing or not.

VATICAN ENVOYS MEET PORTES GIL IN SECRET PARLEY

Open Negotiations for Peace in Mexico.

BY JOHN CORNYN.

(Chicago Tribune Press Service.)

MEXICO CITY, June 12.—The conference between the Vatican and Mexico for settlement of the Mexican religious question began at noon today, when Magr. Leopoldo Ruiz y Flores, archbishop of Michoacan, and Bishop Pascual Diaz of Tabasco met President Portes Gil at Chapultepec castle. The meeting lasted an hour and forty minutes.

Archbishop Flores said to photographers: "Don't photograph my heart, for it would be compelled to tell what is happening." President Portes Gil and the representatives of the Vatican refused to talk of the matters discussed, but they intimated that the conference covered general and preliminary matters. All three smiled as though satisfied with the outcome of their initial meeting. The conference will continue daily.

Portes Gil Judge and Jury.

The president will be judge and jury in the conference, in which every phase of the religious question will be discussed in an effort to reach an agreement on all points under controversy.

It was stated that the points of controversy now being discussed are largely those governing the relation of the church with public authorities and the government, such as conducting Catholic schools under the law requiring that instruction in the primary schools be nonreligious, as well as residences for priests, and seminaries for educating priests.

Rumor Agreement Reached.

Washington, D. C., June 12.—(U.P.) The satisfaction expressed by the participants in today's religious conference in Mexico City gave rise to apparently well founded reports in Washington tonight that an actual agreement had been reached between the prelates of the Roman Catholic church in Mexico and the Mexican government.

It was believed in informed circles that the conference was the climax of a long series of negotiations and that there is now lacking before general religious worship can be resumed in Mexico, only the approval of the pope. Communications asking for his approval are said to have already been sent from Mexico City.

Most of the preliminaries leading to today's parley were conducted from Washington. Repeated rumors, still unsubstantiated, however, had it that Ambassador Dwight Morrow and Ambassador Manuel C. Teles of Mexico played leading parts in the negotiations.

Test Plane on U. S. to Brazil Airway Feared Lost

(Chicago Tribune Press Service.)

NATAL, Brazil, June 12.—Apprehension is felt here regarding the fate of

the Safety Airways plane which making an experimental flight for the establishment of a new safety line between Brazil and the United States, has not yet arrived, although it was expected in Natal last Sunday.

at the END of her ROPE

All through the night she cried after Jim broke the engagement. She had loved him so! And now he was gone... At the office, too, there was trouble. Another girl, far less capable, had been promoted to the position she, herself, had been promised. She was in despair—at the end of her rope.

It's unforgivable

MOTORIST FREED AFTER TRYING TO DISCIPLINE COP

Prosecutor Aids Thatcher in Niles Center.

BY PUTNEY HAIGHT.
Marvin Thomas Thatcher, president of the Benson Musical corporation, who was arrested at Niles Center following his attempt to discipline Leonard A. Murphy, a policeman in plain clothes and in an unmarked automobile, for running through a red light signal on McCormick road, was yesterday discharged by Justice Percy Harms.

For a few minutes Mr. Thatcher believed that he was being held to the grand jury. That was the decision of Justice Harms when the case was called at 2:45 o'clock at the village court room.

The justice was in some apparent agitation as he took his seat at the elevated desk, and he immediately got down to business, after announcing the title of the case.

Discharged for Speeding.
"Now, on the charge of violating section 22 (speeding) I find that the charge was not proved, and I discharge the defendant."

"On the charge of violation of section 41a (leaving the scene of an accident) I have thought over the evidence presented and think that there is probable guilt and hold the defendant to the grand jury."

Mr. Thatcher looked surprised and then depressed.

A man inside the railing at this point stepped up to the judge and asked: "How do you arrive at that conclusion?"

The justice looked surprised and indignant.

"Who are you?" the court asked, "and what is your interest?"

"I am C. J. Mueller, assistant state's attorney," replied the visitor, "and I am interested in the evidence. I have read the record over very carefully and have been unable to find any evidence that justifies the holding of this defendant to the grand jury."

Would Not Indict.
Justice Harms gasped, but did not reply. Mr. Mueller continued:

"I can tell you for your information that on this evidence there will be no indictment voted by the grand jury if you do hold the defendant. I do not see upon what you have based your decision unless it was influenced by the remarks of the inexperienced prosecutor who appeared here when the case was called."

"Why," said the justice, "Thatcher admitted that he offered to pay the

KERMIT ROOSEVELT IS BACK FROM CHINA; HAS MUSEUM SPECIMENS

San Francisco, Cal., June 12.—(AP)—Kermit Roosevelt, son of the late President Theodore Roosevelt, arrived here today en route to his home in the east after a hunting expedition in China.

On the trip Kermit and his brother, Theodore, collected many rare zoological specimens for the Field museum in Chicago.

While in China, President Hoover appointed Theodore governor of Porto Rico. He will return home later after "cleaning up" the work in India, Kermit said.

"I am not interested in Thatcher," Mr. Mueller replied, "but the state's attorney's office, after a review of the evidence, has decided that it should be dismissed. So far as our office goes there will be no true bill."

This Case Is Dismissed.
The gaze of the justice swept the faces of the group of police officers gathered close to the desk.

"What am I going to do?" he asked, rather generally.

"That's for you to say," volunteered a stocky listener.

"Well, I will dismiss the case, then," the justice said, and Mr. Thatcher, with Attorney Leroy C. Morby of the Chicago Motor club, walked out of the courtroom.

Officer Murphy, who turned on Thatcher when the latter protested against Murphy's rush through the red light, and ordered him under arrest, was present in court, but had nothing to say.

History of Case.
The Thatcher incident occurred last week at Oakton street and McCormick boulevard, about 9:30 p. m.

Murphy, by tooting his horn incessantly, pushed his way through a line of cars waiting for the light to change and then drove his car through the signal. Thatcher followed him to cause his arrest. When he caught up with him he discovered that Murphy was a policeman and proceeded on his way. Murphy followed him and arrested him, verbally charging him with seven violations of laws and ordinances and insisted that he go to trial that night.

Thatcher put up \$50 and decided on a trial. When the trial came up the charges proved to be speeding and leaving the scene of an accident without reporting his name and number. Thatcher denied coming in contact with Murphy's car but said he agreed to give Murphy some change if Murphy insisted that there had been contact. No evidence of the cars scraping was offered.

KILLED AT WORK IN CAR PLANT.
J. Tosepek, 41 years old, 13448 Mackinaw avenue, was fatally injured yesterday when his clothing was caught in a machine while at work in a steel car manufacturing plant. He was dragged in between moving wheels.

CHINA CONSIDERS COMPLETE BREAK WITH RED RUSSIA

Sequel to Raids on Soviet Consulates.

NANKING, China, June 12.—(AP)—Severance of diplomatic relations with the Soviet government was discussed at an important conference this morning between Gen. Chiang Kai-shek, Foreign Minister C. T. Wang, and other high officials of the Nationalist government.

The situation arising out of Chinese raids on the Soviet consulates in Manchuria, particularly that at Harbin on May 27, was considered in detail.

Some of those at the meeting believed that alleged communist propaganda found there necessitated an abrupt withdrawal of Chinese representatives in Russia.

Others held, however, that establishment of relations on a firmer basis would solve the problem satisfactorily and prevent further alleged subversive activities on the parts of the Moscow agents.

Report Wholesale Cannibalism.
(Chicago Tribune from service.)

PEKING, June 12.—Wholesale cannibalism is reported in the famine regions west of Saratung and Suiyung, in Shanai province, following the recent slaughter and devouring of thirty-five persons by famished hands, which systematically attack unprotected posts and eat their victims. The mysterious disappearance of many people was first attributed to bandits seeking ransoms, but it has now definitely been traced to cannibalistic packs, half eaten remains having been discovered by search parties.

People fear to travel alone and move in armed groups. Missionaries confirm the reports of the forays, the famine relief bureau saying that the slaughter of human beings for food was widespread and that mutilated corpses of children are frequently discovered.

GIRL VANISHES AFTER CHURCH; POSSE AIDS HUNT

Rockville, Ind., June 12.—(Special.)

A Parks county posse led by Sheriff Claude E. Robinson today conducted an extensive search for Mary Frances Whelan, 15 year old daughter of Mr. and Mrs. Richard Whelan of Fort Lauderdale, Fla., who disappeared from the streets of Rockville Sunday night in much the same manner as did a year old Edith Mae Dierdorf, whose mutilated body finally was found in a creek south of Terre Haute last January.

Miss Whelan for the last six weeks had been visiting her grandparents, Mr. and Mrs. Norval D. Scott, and her aunt and uncle, Mr. and Mrs. Walter Scott. She left the home of her grandparents Sunday evening to go to Rockville, where she took part in a program in the Christian church.

She left the church alone and went to a candy store on the public square, where she bought a bag of pop corn. Leaving the candy store, she walked to the east side of the square. She has not been seen since.

(Continued from first page.)

delegation will furnish upwards of 20 votes against the debenture. The two Democratic conferees on the farm bill, Representatives J. B. Aswell (La.) and D. H. Kincheloe (Ky.), are against the debenture and their influence should be sufficient to swing over a considerable number of votes.

Under the program, as agreed upon, Representative Hagen will move to send the bill to conference again as requested by the senate in its formal message, transmitted today to the house.

This motion will be followed by a motion by Representative John Q. Tilton (Rep., Conn.), majority leader, to instruct the house conferees to eliminate the debenture provision of

the senate bill. If this motion is carried, as is likely, the senate and house conferees probably will meet in the afternoon and will agree upon the original conference report.

Unless there is unexpected delay, the conference report will come up for action in the house on Friday and should be ready for the senate, either late Friday or on Saturday. There appears no question but that the senate will accept the conference report if the house has rejected the debenture provision.

President Hoover's pledge for greater tariff protection for agriculture figured in a sharp colloquy in the senate which started when Senator James E. Watson (Rep., Ind.), majority leader, discussed recess plans.

Foreshadowing on Watson.
Senator William E. Borah (Rep., Idaho), promptly pounced on Senator Watson with questions as to his attitude on the matter of general versus limited tariff revision, and Senators J. T. Robinson (Dem., Ark.), minority leader; Pat Harrison (Dem., Miss.), and others joined in heckling the majority leader.

"Are the Republican members of the finance committee willing to confine the revision to farm tariffs?" asked Senator Borah.

"I do not think so," replied Senator Watson. "Speaking only for myself, I am not."

Senator Borah asserted that "it would be better for the country and

much better for the farmer, if we adjourn this body entirely on the question of the tariff."

Would Vote to Adjourn.

"It is the determination of the Republican leaders to have a general revision," added Senator Borah, "I will vote to adjourn this body."

Senator Watson, in reply to queries from other senators, reiterated that he favored a general revision, but that he did not mean by this "an unlimited revision."

"Rolled down, then," said Senator Kenneth McKellar (Dem., Tenn.), "the senator does not agree with the President on a limited revision?" "If that means nothing except agriculture, I do not agree," responded Senator Watson, "but I do not so understand the President's message."

Before Senator Watson took the floor, Senator Wesley L. Jones (Rep., Wash.), assistant majority leader, told the senate that congress should recess for only a brief period and that the finance committee should speed up action on the tariff bill with a view to a completing the enactment of the legislation early in the fall. Senator Watson made it evident that he did not believe that the bill could be finally acted upon until just before the regular December session.

Tariff hearings were commenced during the day by the finance committee. The full committee heard a number of witnesses on valuation provisions and tomorrow subcommittees will begin hearings on schedules.

Follow These Simple Rules:

- Every week-day for 42 consecutive days (not including Sundays), the Chicago Tribune will print a "Who's Who?" Crossword Puzzle. Each puzzle will contain the name of a famous person whose picture appears in it. You are invited to solve the puzzles and name the persons.
- The Chicago Tribune will pay \$5,000.00 in Cash Prizes to those who send in the nearest correctly solved complete sets of puzzles in accordance with these rules. Note: This means that you do not necessarily have to solve each of the 42 puzzles completely to win. The prizes will be paid to those whose entries rank highest.
- The prizes are as follows:
1st Prize . . . \$1,000.00
2nd Prize . . . 500.00
3rd Prize . . . 250.00
Next 2 Prizes, \$100 each 200.00
Next 5 Prizes, \$50 each 250.00
Next 10 Prizes, \$25 each 250.00
Next 100 Prizes, \$10 each 1,000.00
Next 310 Prizes, \$5 each 1,550.00
430 Prizes Totalling \$5,000.00
- This offer is open to everyone—men, women, boys and girls—except employees of the Chicago Tribune and their families. You pay nothing. Just prove your skill.
- Puzzles are to be submitted only in complete sets. Do NOT send in each puzzle separately. Hold all puzzles until you have the complete set of 42. Then send them to "Crosswords," Chicago Tribune, Post Office Box 1539, Chicago, Illinois. All entries must be in by midnight, 15 days after Puzzle No. 42 has been printed.

- Each entry must be sent by first class mail, postage prepaid. Entries with insufficient postage will be returned by the Post Office Department. No entries will be returned. With each entry a letter must be sent giving your name and address and telling in 50 words or less which of the 42 famous persons you consider the greatest and why. Contestants may submit as many sets of puzzles as they wish, but no contestant will be entitled to more than one prize.
- You need not buy the Chicago Tribune to compete. You may copy or trace the puzzles and send them in. The Chicago Tribune may be examined at any of its Offices or at Public Libraries free of charge.
- The judges will be appointed by the Chicago Tribune. Their decisions will be final. In case of ties a drawing will be held.

TORCH SLAYER WILTS ON STAND IN MURDER TRIAL

Defense Seeks Only to
Escape Electric Chair.

BY TOM PETTEY.

(Chicago Tribune Press Service.)
Elizabeth, N. J., June 12.—[Special.]
While Henry Collin Campbell, the torch slayer, sat in a half stupor this afternoon his counsel completed the fight to save him from the electric chair. Campbell, whose shattered nerves finally wilted completely, gave up the fight under cross-examination earlier in the day.

Tomorrow morning the state will open up its case, Supreme Court Justice Charles E. Case will charge the jury, and a disconsolate, tortured little wreck of a man probably will go away to prison for the remainder of his life. The prosecution will ask the death penalty for the murder of Campbell's bigamous wife, Mrs. Mildred Mowry, but if the testimony of physicians, alienists, and brain experts is to be taken at face value Campbell's death penalty already has been sealed.

The defendant is accused of shooting Mrs. Mowry to death and then pouring gasoline on her body and burning it.

Asks Mercy of Jury.

After a long hot day given over to testimony of medical experts, Francis A. Gordon, youthful attorney for Campbell, addressed the jury with the only plea he could. "We do not contend the defendant is insane. We say he was not capable of premeditation last Feb. 23 when he shot and burned Mrs. Mowry; that his ramshackle mind was in a daze."

"We are asking a second degree murder verdict for this old, wretched crumbling wreck of humanity. No prison walls are going to keep his earthly matter long. The day of the barbarians is over. Your conscience need not make you impose the extreme penalty on this man."

Discusses Parts of Confession.

After outlining the entire case and dissecting parts of Campbell's confession, the defense attorney turned his back on the jury and pointed to Campbell, who sat with mouth agape, slumped in his chair.

"You need only look at him and I know you will be merciful, but if your consciences do dictate a first degree murder verdict then bring with it a recommendation for mercy."

In New Jersey a first degree verdict with recommendation for mercy usually means life imprisonment at hard labor.

Campbell resumed his place on the witness stand when court opened this morning. He was not as intelligent in his answers as on the previous day. He was questioned by Prosecutor Abo

J. David and most of his answers were, "I don't know. I just can't remember."
Campbell was on the stand for an hour and tottered down to make way for a medical specialist, who testified that in his low physical condition Campbell might not have been able to tell the difference between right and wrong.

State Begins Rebuttal.

The defense then rested and the state began its rebuttal. The first witness, Dr. Lawrence M. Collins, testified, and others who followed him agreed, that Campbell did not use morphine to any degree. No needle marks were found on his body and he did not exhibit any of the symptoms of a drug addict, it was stated. The witness said Campbell was sane when he murdered Mrs. Mowry and could distinguish right from wrong.
Dr. Emil Stein testified Campbell

was "a sane man." Three other alienists told at length of the torch slayer's mental state, but all agreed he knew right from wrong.

Thought Him "Perfect Husband."

An advertising man, Arthur T. Robinson, a rental agent, Miss Evelyn Foster, and an eye, ear and nose specialist, Dr. Frank E. Bart, told of conversations with Campbell. They thought him "very intelligent." Miss Foster said "he absolutely acted like a perfect husband."
Mrs. Rosalie Campbell, the defendant's wife, beamed from her seat in the audience, where she had been sitting alternately sobbing and taking notes. She is writing her impressions of the trial for a New York newspaper syndicate.

BORG FOOD SHOP OF \$20.

NEW BIG OFFER

to the People of Chicago

The

Chicago Evening Post

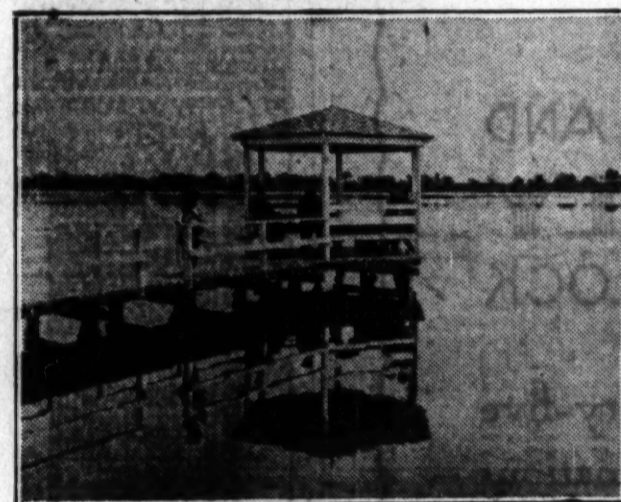

In response to popular demand has created a new summer resort in the famous Lake Geneva region

INTERLAKEN

Where you can secure a lot for only

\$86.00 \$12.50 \$3.50
Down Per Month

by subscribing to the Chicago Evening Post for 6 Months

ing INTERLAKEN, where the families of our subscribers can enjoy all the benefits and pleasures now enjoyed by the very wealthy who have bought up many of the lake properties in Wisconsin on which they have erected their summer mansions.

LAKE WANDAWEGA, along the southern shore of which fronts INTERLAKEN, is a large popular lake dotted with summer cottages where the members of its summer colony enjoy fishing, boating and bathing.

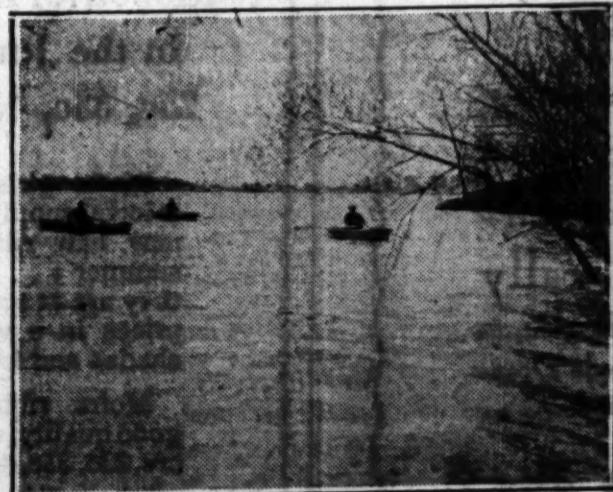

SILVER LAKE, along the shores of which INTERLAKEN faces, is a picturesque lake with gradually sloping gravel shores. It is safe for children and will soon become a popular summer playground.

INTERLAKEN, in the region of Lake Delavan, LAKE GENEVA and Lake Como, is only 85 miles from Chicago, on all good paved roads. It is 3 1/4 miles from Elkhorn.

In presenting INTERLAKEN to its readers, the CHICAGO EVENING POST only desires to render a real service and fill a great need for a summer home site where people of moderate means can send their families to enjoy all the advantages offered at summer resorts where property sells for tremendous prices.

Act Now—Don't Wait

To take advantage of this wonderful opportunity you must subscribe to the CHICAGO EVENING POST for 6 months. Then you can secure a lot in INTERLAKEN for only \$86.00—payable \$12.50 down and \$3.50 monthly. Not less than two lots or more than five lots to any individual. No lots reserved. Come today, or if you cannot call at the office, fill out and mail to the CHICAGO EVENING POST the attached coupon.

INTERLAKEN

has been developed by THE CHICAGO EVENING POST only as a benefit to its readers and to the new subscribers we will secure by this unusual offer. Wisconsin lake property is becoming scarcer and more valuable every year, and it will soon be out of reach of the man of average means. We feel that we are filling a need and giving a service to the people of Chicago by offering

MAGNIFICENT CLUBHOUSE

On a promontory between the two lakes THE CHICAGO EVENING POST has built and furnished an impressive COLONIAL STYLE CLUBHOUSE which it will present free to an association of lot owners, in which every purchaser is entitled to membership. This membership privilege, as well as the value of all the waterfront, which is to be held by the lot owners' association as a park, is a valuable addition to your investment in the lots.

How to Reach Interlaken

By Auto

Out Milwaukee Avenue to Ballard Road. Turn left on Ballard Road to Rand Road. Follow Rand Road thru Lake Zurich, Wauconda, Volo and McHenry. At McHenry turn right on U. S. Highway 12. Follow Highway 12 through Lake Geneva and Elkhorn. About three miles beyond Elkhorn turn left to Interlaken.

By Railroad

Chicago & North Western Railroad to Lake Geneva. Train leaving North Western Station, Sundays, 7:30 A. M., Standard Time. Special Bus will meet train and take you to Interlaken.

**This Is What You
Get for \$86.00**

—A Lot at Interlaken.
—Membership in the Association of Lot Owners, to which will be given the Entire Beach, the Bath Houses, and the Clubhouse, Completely Furnished, for their use and benefit.

All Lots—Same Price

First Come, First Served

THE CHICAGO EVENING POST'S desire is to render real service to its readers. The resort property is worth many times the price for which it is offered.

BISHOP HELD TO BE A MODERNIST GIVEN A SLAP

Denver, Colo., June 12.—(AP)—Protests filed by 19 ministers charging Bishop Francis J. McConnell of the Methodist church of Brooklyn, N. Y., with "modernism" today led to his removal from the program as keynote speaker of the annual meeting of the northern Baptist convention, which opens here Friday.

The majority of the protestants to Bishop McConnell's selection as the guest speaker were ministers of Denver and Colorado, many of whom were active in pastorate in this state when Bishop McConnell was a minister here.

They based their objections to McConnell on his "modernistic views" expressed in his book, "The Christlike God," published two years ago. The protest declared:

"We, as ministers, cannot help feeling that recognition by the northern Baptist convention of one who is widely known as holding these views (expressed on page fifteen of the 'Christlike God') plainly would seem to give approval to this position and erroneously represent what we find to be the unmistakable and unequivocal declarations of God's word as properly held by the great Baptist denomination."

The protestants further declared their protest was filed after adverse reports upon Bishop McConnell's selection had been received from all over the country.

Dr. Avery A. Shaw, president of Denison university, in Granville, O., has been selected to succeed Bishop McConnell as the guest speaker of the convention.

POWER COMPANY MATE OF ACCUSED ALLIES SOUGHT WIFE IN \$50,000 IN U. S. HEARING KILLING INDICTED

Washington, D. C., June 12.—(AP)—The already voluminous record of the federal trade commission's investigation of public power utilities was increased today by statements requested from the International Paper and Power company and the National Electric Light association.

The International Paper and Power company was declared by Archibald R. Graustein, its president, to have given no financial aid to its subsidiary, the International Paper company, in the latter concern's investment in newspapers.

Approximately a score of college and university professors were listed by the National Electric Light association as having received payments from it for research work of a technical nature or for expenses for attending public power utility conventions.

Another exhibit was a declaration by C. G. Abbot, director of the Smithsonian institution, that only fifteen of the institution's 1,147 scientific publications during the last ten years had been financed by outside interests.

Dean Announces Crime Detection School for N. U.

Definite announcement of the establishment of a school for the study of scientific crime detection at Northwestern university for the next term was made yesterday by Dean John H. Wigmore of the law school at the annual luncheon of the school's alumni association in the Furniture club, 636 Lake Shore drive. The plan was approved by a committee of faculty members appointed by the university board of trustees to consider the proposal of Burt A. Masse, vice president of the College-Palmolive-Peet company.

Henry Barrett Chamberlin, operating director of the Chicago crime commission, was elected president of the Law School Alumni association.

Wood, William Thompson and Taylor Pierce on charges of attempting to murder Wood? Judge Dingeman was asked.

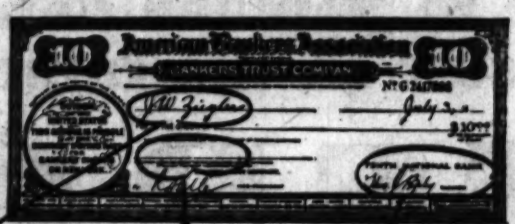

That depends entirely upon the prosecutor, Judge Dingeman stated. Mrs. Wood, Pierce, and Thompson have been under charges of attempted murder since the night of Haggerty's death.

The plot, as charged by Wood, in that Mrs. Wood, Thompson, Pierce, and Haggerty wanted to kill him for \$50,000 life insurance.

Mayor's Proclamation Urges Flag Day Observance

In a proclamation issued yesterday, Mayor Thompson proclaimed Friday, June 14, as Flag day and requested that the flag be displayed from public buildings, places of business, and the homes. This flag day marks the 152d anniversary of the adoption of the Stars and Stripes.

Why the A-B-A Cheque is the safest way to carry money

- (1) You sign your name here when you buy A-B-A Cheques at your own bank.
- (2) You sign again here in the presence of the person who cashes the cheque for you.
- (3) Always look here for your own bank's name when you buy travel cheques.

Comparison of your two signatures is your identification. If cheques are lost or stolen before you sign the second time your money is refunded.

Sheer Chiffon Frocks

From the Moderate-Price Section

Have a Dainty Charm

The refreshing airiness of these delightful frocks is a charming inspiration for summer attractiveness—which is so dependent upon that elusive appearance of calm and cool. They are perfect for so many occasions—town, luncheon, tea, dinner and dancing during the hot months.

At the left is a flowered chiffon which has the distinct advantage of having detachable sleeves, so that it may serve many purposes. Varied prints. Sizes are from 16 years to 42.

At the right a fine polka dot frock comes in navy or black with white, egg-shell with brown, white with navy. Sizes from 14 years to 42.

\$25

Fourth Floor, Wabash.

Rough Straws, \$5

Just the Note for Bright Prints

They cost so little and are so very smart with printed frocks in warm weather. Brims are wide or medium. Many colors.

Ready to Wear Section

Fifth Floor, North.

Small Polka Dots for "Apparel Petite"

And properly so, when they pattern a suit of silk crepe in combination prints for the smaller woman. Black and white, navy and white, brown and beige, red and white. Smartly proportioned and expertly designed for the small figure.

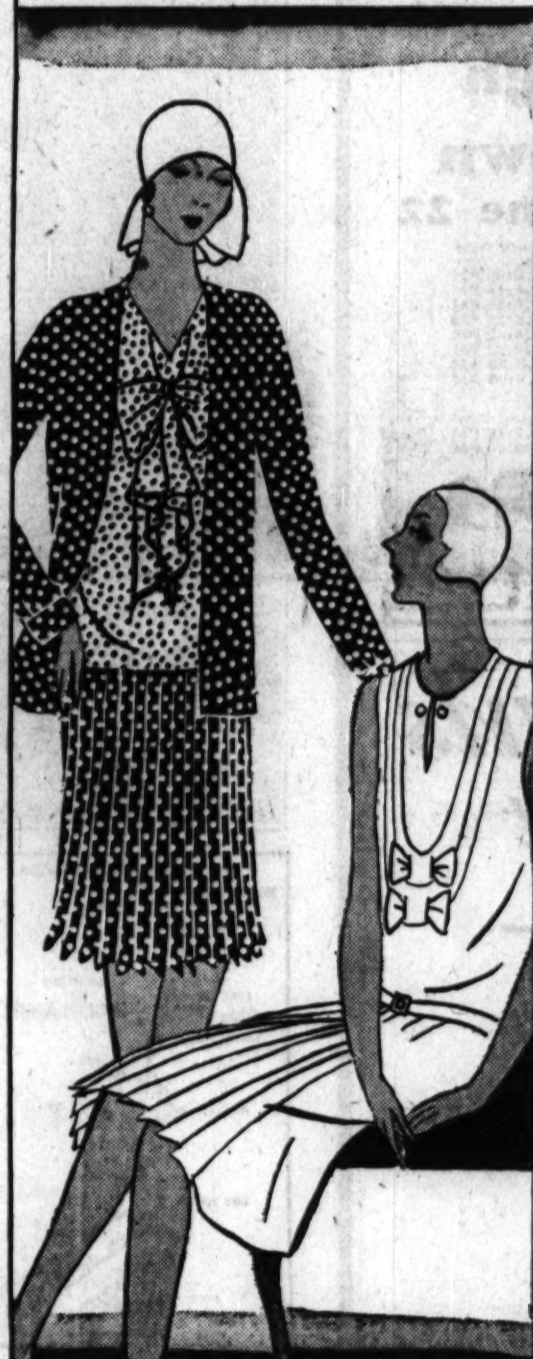

\$35

Bows on a Sleeveless Sports Frock

They finish the front of this sports frock of silk crepe—which, of course, is included in every complete summer outfit. It may be chosen in the pastel shades, lovely tones, too, as well as white.

MARRINER AND DORVAL BATTLE IN RING TONIGHT

Hanson and Ross Meet in Semi-Windup.

BY WALTER ECKERSALL.

Jack Dorval of Pennsylvania, who made a decision over Otto Von Porat, and Les Marriner, former University of Illinois football player, will meet in the main event of the boxing show at White City tonight. It will be the first open air show of the year.

Marriner is a hard right hand hitter. He can punch from any position, but relies on a right cross. Dorval, shifty and crafty, can hit fairly hard with his right hand.

Hard Hansen in Semi-Windup. Eakon Hansen, Norwegian middleweight, and Ted Ross of South Chicago are ready to clash in the ten round semi-windup. Both are wicked right hand punchers and the one who lands the first hard right cross may win the fight.

But Hammer of Gary, Ind., winner of the 147 pound title in Taz Tazman Golden Gloves tourney, will make his professional debut by meeting Harry Wilson, a local welterweight. Hammer carries a wallop in his right hand.

The other fights on the card will bring together Walter Madey, south side heavyweight, and Eddie Anderson of Baltimore; Patsy Pollock of Canada and Johnny Battone of Newark, N. J.; and Samy Adouci of Roseland and Johnny Panek of South Chicago. The first bout will be staged at 8:15 o'clock.

Master Leaves for Coast. Earl Mastro, west side featherweight who defeated Midget Mike O'Dowd of Columbus, O., at the Chicago Stadium last Monday night, left yesterday for Los Angeles, Cal., where he will meet Fidel La Barba, June 27.

Paddy Harmon yesterday announced that Sammy Mandell, lightweight champion, had signed to meet any challenger on or before Aug. 10. Harmon asserted he will stage the fight either at Cobo or Sox park. Harmon is considering Billy Petrolle, Tony Casanova, Luis Vicenti, Jack Berg, Billy Wallace and Louis Kid Kaplan.

MERCER EXPLAINS CONNECTION WITH HAWKEYE "FUND"

Iowa City, Ia., June 12.—(P)—The "shut fund" for athletes mentioned in connection with the ousting of the University of Iowa from the western conference, was explained in detail last night by W. W. Mercer, its administrator.

Mercer said the fund was contributed by alumni of the university, and was used to make "emergency" loans to athletes who found themselves in need of funds. No athlete ever received more than \$200 or \$300 during a school year, Mercer declared, adding that in most cases the amounts loaned were much smaller than that.

"The fund was conducted strictly as a business proposition," Mercer said, "and athletes obtaining money signed notes for the amount, payable when the student graduated and began to earn money."

Although he would not name the fifty or more athletes who he said borrowed money from the fund, Mercer declared that Oran Pape, Robert Spurling, Doyle Funkitt, and Mike McLean never received a cent from the fund.

WHEN LORD PLUSHBOTTOM HEARD A SILVERY FEMINE VOICE YOO-HOOING AT HIM AND STOPPED HIS CAR TO SEE WHO IT WAS, HE GOT THE SURPRISE OF HIS LIFE WHEN MRS. W. MULLINS WALTZED IN AND ANOTHER SURPRISE AT THE ENSUING EVENTS.

ED GIVE A PARTY TO KNOW WHO MAMIES STEPPING OUT WITH HELLO—THERE'S A CAR STOPPING HERE NOW—

YAS I AM, LORD PLUSHBOTTOM. I'LL MAKE HIM SORRY I'M GONNA END IT ALL!

NO, NO, NO! MY DEAR MRS. MULLINS—NO NOT IN MY CAR, PLEASE!

WHOOPEE. AHM GONNA GIT OUTTA HEAN.

HA! SO YOU'RE THE VIPER WHICH HAS BEEN BREAKING UP MY HOME!

Tippecanoe Still Lures the Angler

BY BOB BECKER.

The Tippecanoe river in northern Indiana has been extolled in song and story for many years. This historic old stream used to draw a large army of fishermen and campers to its banks. Today Indiana has even better fishing to offer in the Tippecanoe because two good sized lakes have been formed in the stream at Monticello, Ind.

A trip to the motorizing fishermen who want a pleasant week-end trip over good highways is to hit the concrete to either Lake Shaffer or Freeman, the two artificially made lakes at Monticello. Both kinds of black bass, crappies, white bass, bluegills, pickerel and pan fish are found in these lakes and you should have no trouble in getting a good meal.

Live bait fishermen need not take minnows along because there are minnow hatcheries at the lakes. In fact, you'll find thousands of gold fish available for bait. These bright colored fish are good bets when it comes to attracting game fish.

There are two routes available to reach the Monticello fishing country from Chicago. One is by highway No. 1 to Watseka and then east into Indiana straight to the city of Monticello which is the middle point between the two lakes in the Tippecanoe river. The other route goes through Crown Point and is concrete to Rensselaer, Ind.

At the latter point you turn east to the town of Monon and reach Lake Shaffer (the upper lake) on a fine gravel and stone road.

Humboldt Park Waltons

Members of Humboldt Park chapter, No. 73, of the Isaac Walton League of America leave Saturday for a two day fishing trip at Lake Marie. Prizes for the largest bass, pickerel, and pan fish will be offered. A casting contest will be held Sunday morning, with prizes. Permanent record of the trip will be made by the chapter's movie operator.

INDIANS RELEASE GORMAN.

Indianapolis, Ind., June 12.—(Special.)—Charles (Chuck) Gorman, infielder, was released today by the Indianapolis club of the American association to the Columbia club of the South Atlantic league.

SURVEY SHOWS TRADE SPEEDING MERRILY ALONG

Chicago District on Crest of Wave.

BY O. A. MATHER.

Business is humming right along and the prospects for autumn trade are good. And the middle west territory which is tributary to Chicago is riding the crest of the wave. These conclusions are set forth in The Tribune's monthly survey.

"The unequal rate of business operations has continued without cessation and the upswing of business which began early in 1928 is approaching its peak," the survey says. "This is in accordance with the experience during previous expansion periods which have run for about a year and a half. The momentum of the unprecedented activity of the first half of 1929 will no doubt carry over into the fall of the year."

"Some of the brightness of the outlook for fall has been dimmed by the recent collapse of the grain market with wheat again selling at a dollar a bushel. This, however, will have one effect in the easing of money rates next fall to help the farmer."

Other Indications.

"The automobile industry continues to make new records with the export demand especially keen. Steel mills all are operating at capacity and a remarkable demand for steel in the Chicago district has been a big factor in the maintenance of a high rate for the entire industry. The high rate of building contracting of April was not reached through May, but the rate of construction of electrical energy by manufacturing plants, the number of cars loaded with freight and the volume of checks cashed by banks all set new records for April. The gain in car loadings in the Chicago district was especially important and brought the total for the month ahead of the corresponding month of last year for the first time in 1929. Checks cashed were six per cent ahead of April, 1928, and in the country as a whole, 12 per cent greater."

"Contrary to the established trend, employment and pay rolls in the factories throughout the country increased in April over March. The same holds true for the index of employment to the highest level for two years. Pay rolls in the Chicago district set a new high record for April with a gain of 13 per cent over last year. Savings deposits gained eight-tenths of one per cent."

For Whole Country.

"Substantial gains in retail sales were made over April, 1928, in the Chicago district and the United States. The index for the month being three points ahead of last year. New passenger cars registered set a new high mark for all time. National building contracts approximated last year's level figures."

"For the whole country, general manufacturing operations last month were the highest on record, based on consumption of electrical energy. The Electrical World says the previous high monthly rate in April was surpassed by 23 per cent, while all sections reported operations materially above those of May, 1928."

Chicago Lags as Center for Insurance

BY SCRUTATOR.

The small number of insurance companies with their home offices in Chicago and the relatively insignificant proportion of the country's total business they do has often been a matter of remark. Attention is directed anew to the situation by the formation of one new fire company and its combination with three others, one an Iowa concern, into a "fleet" within the last few days.

Chicago, it is claimed, sends more money in insurance premiums to out-of-state cities than any other community in the world. Frank H. Ellis, treasurer of the new Fire Insurance company of Chicago, has furnished statistics to show that Cook county last year paid for fire protection a total of \$28,711,323, and that less than \$400,000 went to Illinois companies.

The same condition exists in life insurance. Mr. Ellis said, with single eastern and foreign companies writing policies for much larger amounts than all the local companies combined. He sees the need for a greater concentration here as a contribution to the city's future as a financial center.

Cuts Overhead.

It has been a good many years since the so-called fleets as a matter of good business practice. The fleet usually has a number of individual concerns with offices together. Overhead is cut down. How important this is can be seen in the estimate that one set of maps to cover every city block in the country costs \$180,000. The saving with a half dozen concerns sharing that investment is apparent.

Such maps show the managements, which commonly are interested in the companies composing the fleet, where each firm has its risks. Small companies, in particular, must insure when their salesmen are offered large accounts. A property owner may be willing to give an agent a \$10,000 commission when his company's limit in that section may be only \$5,000. The fleet arrangement makes it possible to turn the other business over to a friendly organization that has a reciprocal agreement. Lacking a strong fleet, a small company may be forced to reinsure with a firm which demands all or even more than the amount left after the agent's commission is deducted.

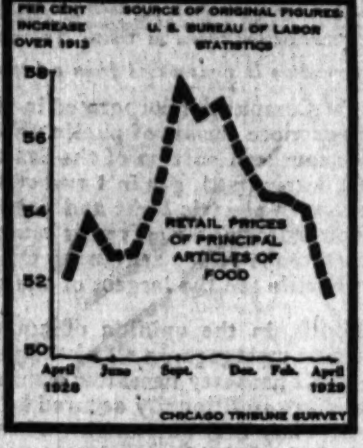

It is said that 90 per cent of all fire insurance is handled under the fleet arrangement. Some fleets in the east, gathered under the influence of investment bankers, number from a dozen to twenty-three companies. The one in Chicago, small as it is, may be a start to something of consequential size in the insurance world.

Would Halt Money Drain.

For all the Chicago insurance to be written by Chicago firms would be as well as impossible. But if the local concerns held a large business done over a wide territory they could compel those on the outside to reciprocate with greater reinsurance here. Large sums flowing to home offices in Chicago would mean a halt in the drain of money to the east and to England.

"Good insurance stocks are a conservative investment. Recently some of the larger investment banking houses have gone extensively into financing the companies and managing the fleets. The tendency has been marked in the last few years. The house behind the new fleet avowedly hopes to make Chicago better known as an insurance center. More favorable laws, passed at Springfield at the last session, are expected to aid this ambition."

RETAIL FOOD PRICES ARE THE LOWEST IN A YEAR

RIVAL R. R. TRUNK LINES TO CHICAGO ARE PROJECTED

[Chicago Tribune Press Service.]

New York, June 12.—Two new trunk lines between here and the west, which form a fifth and sixth to the ones now in existence, are planned by rival railroad men, it was learned today.

L. F. Loebe, backer of a projected trunk line which was defeated by the large eastern system a year ago, disclosed that he and the E. H. Harriman estate are surveying a new line to connect New York, Pittsburgh and Chicago. At the same time William H. Williams, who was formerly a lieutenant of Mr. Loebe, conferred as chairman of the Wabash with Frank Tappin, president of the Pittsburgh and West Virginia, on a plan to link those two with other roads to form a new trunk line from Chicago to Baltimore.

Also it began to appear that the Pennsylvania had scored an advance on other railroads by buying control of the important Canton terminal development at Baltimore. Although the Pennsylvania was silent on its plans, it was believed possible that it had bought the Baltimore property with a view to transferring it to the fifth trunk line planned by Mr. Williams and Mr. Tappin.

Chicago One of First Cities to Get New Radio Service

[Chicago Tribune Press Service.]

New York, June 12.—The General Electric company and the Westinghouse Electrical and Manufacturing company have already begun to manufacture the equipment to be used by the Radio corporation in creating a point-to-point radio service between 14 American cities. It is estimated that about \$10,000,000 will be spent in the building and setting in operation of this service. Chicago and New Orleans are expected to be the first two cities provided with domestic radio telegraph service by the R. C. A. Communications in about six months' time.

Give Details in Financing Air Merger

Details of the basis of exchange of stocks of the various companies which will comprise the Detroit Aircraft corporation were announced yesterday. Four concerns will be taken over through an exchange of stock. Three new companies are being organized to acquire certain assets segregated from other acquired companies and two others are being formed on working capital furnished by the parent corporation.

Stockholders of the Lockheed Aircraft company will receive 11-8 shares of Detroit Aircraft stock for each share held; holders of Ryan Aircraft stock will get two shares for each share held and holders of Development shares will be exchanged on a share for share basis.

Will Be Separated.

Winton Aviation Engine company is to be separated from the Winton Engine company for development and financing by its former parent and the Detroit Aircraft Development and it will have \$1,000,000 capital, as working capital and will own 40 per cent interest in the company.

Blackburn Aeroplane company of Michigan is a newly formed company to own rights, patents and licenses for all of North and South America, except in Brazil, of the Blackburn Aeroplane and Motor company, Ltd., of England. The Detroit Aircraft company will own 90 per cent of the stock and will provide all the working capital, plants, etc. The English company will receive 10 per cent of the stock.

Offers Shares.

The Eastman Aircraft corporation's assets were taken over for 6,750 shares of stock given to individuals who had previously owned the company. The Detroit Aircraft corporation will have an authorized capitalization of 5,000,000 shares, of which \$22,748 will be outstanding. There will be no preferred stock, funded debt or bank loans. Offering of 800,000 shares of the stock will be made tomorrow by a banking syndicate.

Dodge Reports on New Construction in 37 States

New York, June 12.—New construction started in 37 states east of the Rocky mountains from Jan. 1 through to June 7 amounted to \$2,588,747,900, F. W. Dodge corporation reports. The daily average was \$19,539,500, against \$22,613,800 for the first half of 1928.

Western Electric Sales for 5 Months Set Record

Western Electric company sales for the first five months of 1929 totaled \$100,000,000, an increase of \$14,000,000 over the corresponding period last year. May sales set a new monthly record at \$27,326,000.

COMPLETION OF MORGAN UTILITY MERGER NEARS

N. Y. Firms Have 500 Million Assets.

[Chicago Tribune Press Service.]

New York, June 12.—Negotiations for a merger of large public utility companies in upper New York state, with total assets of about \$500,000,000, were virtually completed at the offices of J. P. Morgan & Co. today.

Supplies Working Capital.

The 150,000 shares have been sold to bankers for \$16,750,000, or an average price of \$111.66 a share. Of the proceeds, \$750,000 will be used as working capital for the General Foods company. Another \$750,000 for the same purpose will be supplied by an investment company which Postum is forming to purchase a 49 per cent interest in General Foods. The present Postum company will hold 50 per cent of the stock of General Foods.

May Form Holding Company.

Among the participants in the negotiations were representatives of the United Corporation, the Schoenrock interests and the Cardale group. It was learned. It is believed that a New York holding company will be the vehicle for the vast combination in the first stage of the creation of a state-wide system of public utility properties. The electrical organizations which are expected to be incorporated in the new system have been interconnected for some years and have plans under preparation for further widespread distribution and generation of power.

Among the plans contemplated by engineers of the New York companies are the eventual linking up with New York City's electrical system of the up-state transmission lines drawing largely upon the state's extensive water power resources. Only a part of this power is now harnessed, while the potential horse power available in the St. Lawrence river, in the Adirondacks and in the principal rivers of the state will place New York at the forefront of the country's hydroelectric producers when developed.

Name Possible Units.

Details of the plan to unite the New York companies could not be learned, but it is understood that simple bases of stock exchange have been worked out by Herbert G. French, executive vice president of the Procter & Gamble company. The amount of money involved was not disclosed.

[Continued on page 25, column 5.]

Postum Plans Gigantic Food Firm, Report

[Chicago Tribune Press Service.]

New York, June 12.—As part of its plan to build what is expected to be the largest single food enterprise in the world, the Postum company, Inc., has made an initial investment of \$10,000,000 in the recently organized General Foods company. This is revealed in Postum's application to list 150,000 shares of additional common stock on the New York Stock exchange. Permission to admit this stock to trading on notice of issuance was granted by the exchange today.

Shares Outstanding.

The capital of General Foods, which was organized under the laws of Delaware, consists of 25,000 shares of 7 per cent cumulative \$100 par preferred stock without voting rights and 25,000 shares of no par common stock. Of this capitalization there is outstanding 17,128 shares of preferred and 16,872 shares of common.

Procter & Gamble Firm Buys Dux Co. of Chicago

[Chicago Tribune Press Service.]

Cincinnati, O., June 12.—That negotiations have been completed with the Dux Company, Inc. of Chicago and New York whereby Procter & Gamble of this city has purchased its business including certain United States patents, trademarks, brands, and good will, was announced here today by Herbert G. French, executive vice president of the Procter & Gamble company. The amount of money involved was not disclosed.

SUMMARY OF THE DAY'S MARKETS

CHICAGO.

STOCKS—Higher. Auburn Auto jumps 23% points. U. S. Radio reverses four more points.

WHEAT—Breaks badly early, but closes strong. July, \$1.05 1/2@1.05 3/4; September, \$1.10 1/2@1.10 3/4; December, \$1.15 1/2@1.15 3/4.

CORN—July cash tight. Country sells cash grain freely. July, 91 1/2@92; September, 91 1/2@91 3/4; December, 85@85 1/4.

HOGS—Receipts fall off and prices advance. Top, \$11.40; average, \$10.95. Bulk of sales, \$10.70@11.25.

CATTLE—Demand active. Best steers at new season's high, \$15.40. Bulk of sales, \$14.00@15.15.

SHEEP—Steady. Fat lambs decline. Bulk of sales, \$15.50@16.00. Yearlings, \$11.50@12.00.

PRODUCE—Top score better, 1/4c higher. December, steady, 44 1/2c. Fresh eggs, steady. Futures, unchanged to 1/4c higher. June, 39 1/2c; November, 35 1/2c. Live hens, 1/4c lower. Poultry, steady.

NEW YORK.

STOCKS—Firm. Call money, 8 per cent. Trading dull. General Electric rises 9 points.

BONDS—Steady. Convertibles improve.

FOREIGN EXCHANGES—Mixed. German mark sags to 23.75.

COFFEES—Lower. No. 7 contracts lose 6 to 9 points. Santos unchanged to 7 points lower.

SUGAR—Steady. Cuban support. Futures gain 1 to 3 points.

COTTON—Strong after early decline. Chicago up 6 to 10 points; other markets 4 to 15 points.

BY FRED HARVEY.

New York, June 12.—Thanks to a bulging budget of more or less convincing "prosperity" reports from trade and industrial centers, constructive forces were able to prod the stock market ahead somewhat today. A scattering of favorites were advanced from 5 to 10 points or more. Trading was again at a slow pace, barely topping 2,125,000 shares. The new break in wheat apparently had little or no effect on price trends.

Money Easier.

Money conditions were a shade easier, new funds coming into market channels at slight concessions from the official rate of 8 per cent. While the uncertainty of the credit outlook undoubtedly served to keep down the volume of trading, as on previous days of the week, it received small place in the trade comment. The rank and file of speculators apparently resigned themselves some time since to keep in the gallery until the midmonth settlement stringency is out of the way and are not permitting themselves to be disturbed by the situation any further.

At any rate, they continue to leave operations strictly to the professionals. Chief among the bull items in the news was the announcement that the treasury's June offerings of certificates had been greatly oversubscribed and that the allotments would be drastically reduced.

Other Bullish Factors.

Announcement of expansion program by General Motors, Union Carbide and other companies; favorable reports on the steel trade, the Iron Age reporting that the trade will not be surprised if the output this month holds up close to the high rate of the preceding months; talk of an in-

The present widespread interest in common stocks has resulted in opportunities to buy bonds and preferred stocks at lower prices than are likely to be available again for a long time to come. Mortgage secured, fixed interest bearing securities may be temporarily shelved; but their basic safety will return them to popular favor as standard investments. Diversification is still the Safety Law of investing. Buy bonds, too.

CORONER BLAMES FOGARTY SUICIDE ON BREAKDOWN

Funeral to Be Saturday
in South Bend.

(Picture on back page.)
Warden Edward J. Fogarty of the Cook county jail shot himself to death while temporarily demented due to a complete physical and mental breakdown, Coroner Chester B. Crumpacker at South Bend, Ind., announced as an official finding yesterday after gathering the facts surrounding the suicide of the man who has been a figure in public life for 25 years.

"All the evidence presented to me is indicative of a man suffering from a complete physical and mental breakdown," was the official finding of the coroner.

Speculate on Successor.
While arrangements were being made for the burial of Fogarty on Saturday morning speculation was rife as to whether or not Sheriff John E. Trager would make his temporary appointment of David Moneyenny as warden a permanent one. Moneyenny has been a jail official for nearly 20 years and has served in the county jail as law clerk for the last eight years. Moneyenny received his jail training under Fogarty when the latter was warden of the Indiana state penitentiary at Michigan City for 14 years.

Sheriff Trager said that the appointment of Moneyenny could be considered permanent until he took some other action. He said that he probably would consult with the citizens' committee which brought about the Fogarty appointment to stop recurring jail scandals about the appointment of a permanent warden.

Frank D. Loomis, chairman of the citizens' committee, said that he thought the appointment of Moneyenny was about the best thing that could be done under the circumstances. He said that Moneyenny rated unusually high in the competitive examination held at the time the job went to Fogarty.

Moneyenny said that his committee is ready to function if invited to do so by the sheriff, but that if the latter did not extend an invitation to the committee to meet with him, the committee would wait in the hands of the jail situation. Judge John P. McGorrie, who is also a member of the committee, said he thought that Moneyenny should be given an opportunity at the wardenship and he felt sure he would fill the post.

The Criminal court judges adopted a resolution yesterday commending the work of Fogarty and made preparations for attending the funeral services.

Fogarty died at the last rites of the Catholic church were administered to him by his old friend, the Rev. John P. Degroot. The funeral services will be held at St. Joseph's Roman Catholic church, South Bend, at 10 a. m. Saturday. The Rev. William P. Letnar will officiate. Burial will be in Cedar Grove cemetery.

Hundreds of friends of the former mayor of South Bend viewed his body yesterday as it lay in state in the chapel. His South Bend friends openly charged that his death was due chiefly to efforts of Chicago politicians to make the jail a part of the plunder to be grabbed by victorious politicians.

**WEALTH LEFT
BY MISS SCHURZ

**Mercolized Wax
Keeps Skin Young**

Do you know that just beneath that soiled, discolored, faded or aged complexion is one fair to look upon? Nature causes the normal skin to peel off in tiny, unseen, flake-like particles, a little each day, renewing the complexion of youth naturally, but there comes a time when this skin shedding slows up. Worry, overwork, sickness, inactivity are reasons that cause the face to be blotchy, discolored, pimply and old looking. The thing to do, if you wish to look

your prettiest at all times, is to assist nature in the process of absorption by using pure Mercolized Wax. Get an ounce at any drug store or beauty counter and use it directed. It gently but surely peels away the outer scurf skin, removing freckles, pimples, blackheads or a muddy complexion. The underneath skin, now in evidence, is clear, pink, fresh and velvety, and the entire face looks years younger. Mercolized Wax brings out the hidden beauty.

Elmer Hears All Varieties of Radio Music

And Most of It He Finds
to Be Good.

BY ELMER DOUGLASS.

The elements being at peace after Tuesday's storms, we were able to listen to the fairly attractive programs on the air last evening.

From 8 to 8:30 came the Troubadours orchestra from New York through W-G-N, with its sprightly combination of light melody, harmony and rhythm, a prelude to the slightly heavier programs to follow.

As to the weekly New York orchestra and vocal program through W-G-N, \$20 to \$25, there are good reasons to believe this broadcast is looked forward to by two classes of listeners; first, the larger audience, which cares for high class popular entertainment; and second, those who either are studying or have an interest in the technique of singing.

The justification for the second class of listeners is that the featured soloists, Miss Olive Palmer, soprano, and Paul Oliver, tenor, are outstanding high lights in the field of radio. Their radio technique is unsurpassed, and their songs may be taken as standard.

"Snap Shots of Colorado," a W-G-N \$20 to \$25 musical travesty, contained not only much good music but the opportunity to find a tame bear in a number of interesting comic lines.

Of the latter, was the "tourist doing airplane stunts on a bucking bronco," and the "camper waking up in the morning to find a tame bear in a tree above his tent." The reference to mountain sheep and deer would arouse the sporting spirit of most any man.

Those with good musical memories need not be informed that the principal "Dream Ship" orchestral number was Debussy's "Arabesque No. 1."

And those whose inclinations run to the good and beautiful in music do not willingly close the day without turning an appreciative and perhaps thankful ear upon this nightly event.

**FIRE DESTROYS
FACTORY, SCENE
OF GANG KILLING**

A mysterious fire last night destroyed the two story frame structure at 1723 West Austin avenue where Patrick Maloney, west side racketeer, was shot to death a week ago. Destruction of the building was so complete that the cause could not be learned, and fire department officials expressed the belief that it was incendiary.

Junior Jackson, colored, who lives nearby, told police that several days ago he saw two men send in a fire alarm from the corner box and then speed away in a car. This was done, police believed, by the incendiaries who wanted to learn how soon fire apparatus would reach the building.

OLD GAGE FARM IN BERWYN OFFERED FOR SALE BY CITY

The old Gage farm, comprising 164 acres within the city limits of Berwyn which has been a possession of the city of Chicago since 1881, was advertised for sale yesterday by City Controller George K. Schmidt.

The property is valued at more than \$1,000,000.

The property, which is bounded by 32d street, Riverside drive, Hannah avenue, Home avenue, and 26th street, was taken over by the city in settlement of a claim against former City Treasurer David A. Gage. In recent years the city has maintained a tree nursery on the farm.

**Funeral Services Held
for Mrs. Clara Sherwood**

Funeral services for Mrs. Clara Sherwood, superintendent of the Chicago Foundling home, 15 South Wood street, were held yesterday. The burial was in Memorial Park, Evanston.

Mrs. Sherwood was connected with the foundling home for 20 years. She died Monday at the age of 69 years after a lingering illness.

**John B. Fergus Funeral
Services to Be Held Today**

Funeral services for John B. Fergus will be held at 4 o'clock this afternoon from the Rosehill chapel under the auspices of the Masonic lodge. Mr. Fergus, for 25 years a champion of state reform, died on Tuesday at his home 527 Roscoe street. He was 85 years old.

DRIVER KILLED WHEN HIS AUTO HITS STREET CAR

William J. Carmody, 50 years old, 2221 South Avers avenue, was killed early this morning when the automobile in which he was riding alone crashed head-on into a street car in Ogden avenue between Kenneth and Kostner avenues. No one in the street car was injured. Carmody had borrowed the automobile from his sister, Miss Loretta Carmody, with whom he lived.

His death and three others during the day increased the Cook county motor toll to 541 since Jan. 1. The other victims:

William Thayer, 46 years old, 5555 Shields avenue, truck driver. Died at the Illinois Central hospital from injuries received while unloading his vehicle in the rear of 5471 Kimbark avenue, when another truck struck the tailboard, causing it to fall on his head.

Howard Nelson, 6 years old, 2328 North Troy street. Fatally injured when he was struck by an automobile driven by William Minster, 3235 North Kedzie avenue, while he was playing in front of his home. He died in the American hospital. Minster was held.

Mrs. Emma Glinsberg, 73 years old, 6432 North Rockwell street. Died in the Swedish Covenant hospital of injuries received Monday when the automobile in which she was riding collided with another driven by Lawrence Kingma, chauffeur for George E. Scott of Lake Forest, president of the American Steel Foundries.

Tentative plans for Safety Week to be held here in conjunction with the eighteenth annual safety congress from Sept. 30 to Oct. 4 were formulated yesterday at a meeting of the Public Safety committee.

The committee is headed by Benjamin Samuel, attorney for the Yellow Cab company. Among those at the meeting were Capt. Frank Macchett, G. G. Traver of the Chicago Safety council, Sidney J. Williams of the National Safety council, Charles M. Hayes, president of the Chicago Motor club, Robert Nau of the association of commerce and St. Mayer, president of the Automobile club of Illinois.

CAPITAL HEARS THAT FILENE MAY BECOME SECRETARY OF LABOR

Washington, D. C., June 12. (Special.)—Reports are again persistent that Secretary of Labor James J. Davis will shortly retire from the Hoover cabinet and either engage in business or run for governor of Pennsylvania. Edward A. Filene of Boston has been mentioned as a possible successor, but no verification for this report was available at the White House tonight.

Secretary Davis has headed the labor department since 1921, when he was appointed by President Harding. It was generally understood at the time President Hoover selected his cabinet that he would retain his portfolio for but a year.

One report is that Mr. Davis will accept the presidency of a combination of companies manufacturing radio tubes. Another is that he intends to become a candidate for governor of Pennsylvania next year, entering the Republican primaries in the spring. As late as last Sunday Mr. Davis denied reports he was to retire in the near future.

Mr. Filene is president and chairman of the board of directors of William Filene Sons company, Boston merchants. He has been active in labor matters.

**Judge McKenzie Moss
Dies of Heart Disease**

TRIPLE FUNERAL SERVICE IS HELD FOR FIRE VICTIMS

Two children mourned yesterday at the triple funeral services conducted for their father, sister, and brother at St. Francis of Assisi church, Kostner avenue and Walton street. The church was filled with friends and neighbors.

Frank Cobler, his daughter, Sophia, and son, Stanley, were killed on Sunday when a stove exploded in the kitchen of their home at 2944 Metropolitan place. Mrs. Cobler had died suddenly on the preceding Thursday. Only 13 year old Frances and Edward, 4 years old, are left of the family of six.

After the solemn requiem service was sung, the Rev. Frank Jagielski told the story of the tragedy and the struggle of the father to pay for the home.

Two Girls, 18 and 19, Wonder Why They Aren't More Popular

BY DORIS BLAKE

"We are two girls, aged 18 and 19, with the same problem. We like good times—without getting parties or drinking. We're reasonably good looking. But day after day, evening after evening goes by and we just keep on working, eating, and sleeping. Our friends are people 15-20 older than ourselves.

"We have not unfriendly dispositions and we both know a number of young men, but they tell us their troubles and about the spots they have with their girls. We are not asked to share their good times. Surely there must be young men in the world to appreciate girls who are willing to be good pals without getting serious and snobby—Edith and I believe."

The first rule in broadening one's acquaintance among the opposite sex is to go where they are to be found. A rule more easily spoken than practiced, I'll admit.

But if you are 18 and 19 and reasonably good looking you can take certain liberties in acquaintance making of people more nearly your own age than those you refer to. By which, of course, we do not mean pickup acquaintance nor promiscuous dance hall acquaintance. But you have to have a bit of the pioneering spirit in you. Don't be afraid to strike out. Don't expect other people to do your friendship making for you.

You meet these boys who tell you their troubles. Well, why don't you scare up a few troubles of your own? Tell them you're lonely. Don't be afraid that you'll injure your dignity

DORIS BLAKE ANSWERS

Give Him Another Chance.

"Dear Miss Blake: My fellow left me twice and went with another girl. Now he wants to come back. Please advise. I believe in giving a second chance if circumstances warrant it."

Try Another.

"Dear Miss Blake: My girl friend and I love the same fellow. Sometimes he speaks and sometimes he doesn't. Please advise."

The chances aren't very good where he displays such indifference, girls. Pin your hopes on some one more affable.

by making any revealing confession. There is "hat cameraderie among young people that permits of the disclosure of formal dignities. Besides, if you want a good time you have to go after it just as you go after a job when you want it. You can't just go home evening after evening and hide away until bedtime, expecting a magic telephone call or some dream person suddenly to come to life.

What kind of dancers are you? Dancing skill is a good introductory note. And don't be above indulging in some of the legitimate artifices by which young men are lured to including girls in dates. I mean play the "aren't you wonderful" game a bit when you are being weighed down with confidences. All are legitimate prey who aren't engaged to other girls. In other words, it's a game with a technique to it that you ought to learn. Watch the popular girls and how they play it.

FARM AND GARDEN BY FRANK RIDGWAY

Mowing early and spraying are two effective methods of eradicating such weeds which are causing so much trouble among hay fever victims. Chicagoans have planned a vigorous campaign against that weed this summer. It is now time to start the work of destroying the weeds in this locality.

If the campaign is to be effective the weeds must be killed in vacant lots over the city and suburbs, and along streets and highways leading into the city. The weed is common in the country, even in pastures, where live stock grazes because and make the plants which are bitter. Iowa station plant pest men say that the most feasible method is to cut the weed with a scythe or mower which is in July in Iowa and probably a little later here. It is an annual and cutting immature plants kills the seeds and effectively controls the weed.

On small areas the spraying of weeds with iron sulphate is advisable. Make the chemical solution by adding the iron sulphate at the rate of 100 pounds to a barrel of water. It is best to apply this spray early when the ragweeds are about six to twelve inches high. The sulphate kills the weeds and remains on the grass for a while. It leaves a bluish gray pasture until the chemical is washed off by rain. Thorough cultivation usually holds ragweeds in check in fields and gardens.

EMBARRASSING MOMENTS

The Tribune will pay \$1 for every letter published in "The Most Embarrassing Moment of My Life." Address: Embarrassing Moments, Chicago Tribune. Write on one side of the paper. Send all manuscripts returned.

Praise for Promptness.

It happened when I first started to work in a department store. During the quiet part of the afternoon I was clowning for the benefit of the other girls, mimicking the head of another department, when the telephone rang. Rushing over to it, I said to the girls, "I'll show you how Miss Smith does it." Then in a loud, affected tone I answered the phone and took the call. My companions were all laughing when the manager of my department came over and said to me, "The head of the store was standing near you when you answered the telephone, and he congratulated me on your promptness and diligence. He said that he wished all you other girls were as interested in your work as Miss H. is." The girls just looked at me. That was my most embarrassing moment.

Finger in Hot Tea.

I had dinner at a high class hotel. I ordered tea for my beverage, but when the waiter brought it I did not drink it. Then, as usual, the finger bowl was brought and the cup of hot tea was still on the table. I was talking to the boy friend and instead of putting my fingers in the finger bowl I put them in the hot tea and howled. We got out as quickly as possible, as everybody in the dining room roared.

Bright Sayings of the Children

The Tribune will pay \$5 for each child's saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge all contributions. Write on one side of the paper. Address: Bright Sayings to Junior Sun, The Tribune, Chicago.

William's mother had taken him to town on several shopping expeditions, but the day came when he protested, "Mother, if you are going to the store, I'd rather stay home."

My 6 year old cousin had recently moved from Montana, and he was an ardent admirer of police dogs.

One day he said to me in his cun-

Recent Dry Killings Fail to Change "Ruthless Prohibition Policy"—Bourbon Prince Jilts Mabelle Gilman Corey

DRY KILLER WHO IS HELD FOR MANSLAUGHTER. Emmet J. White, United States customs inspector, who killed Henry Virkula, as he appeared when in the regular army.
(Story on page 4.)

DICKY LOEB'S MOTHER FINED AS SMUGGLER. Mrs. Anna H. Loeb, whose son is serving term for killing Bobby Franks, assessed \$9,837.56 by United States.
(Story on page 1.)

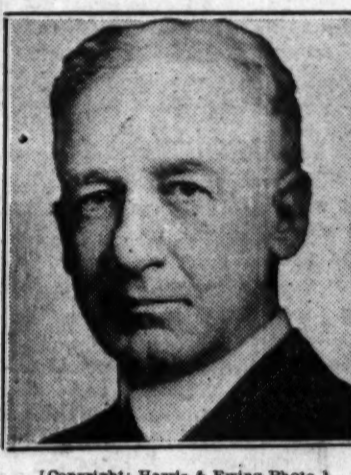

ACTING WARDEN. David C. Money, penny takes charge at county jail in place of late E. J. Fogarty.
(Story on page 30.)

FORMER ACTRESS WHO DIVORCED MAGNATE JILTED BY PRINCE. At right: Mabelle Gilman Corey and Prince Louis of Bourbon, cousin of Spanish king, talking to friend in Paris. Prince Louis finally refused to take \$1,000 a month spending money.
(Pacific and Atlantic Photo.)
(Story on page 10.)

FLOODED STREETS CUT OFF I. C. STATION AND FORCE REROUTING OF CARS. Looking west in 75th street from South Chicago avenue, showing the water under the Illinois Central tracks near the Grand Crossing station.
(Tribune Photo.)

JURIST IS DEAD. Judge McKenzie Moss of U. S. Court of Claims, passes away in Washington.
(Story on page 30.)

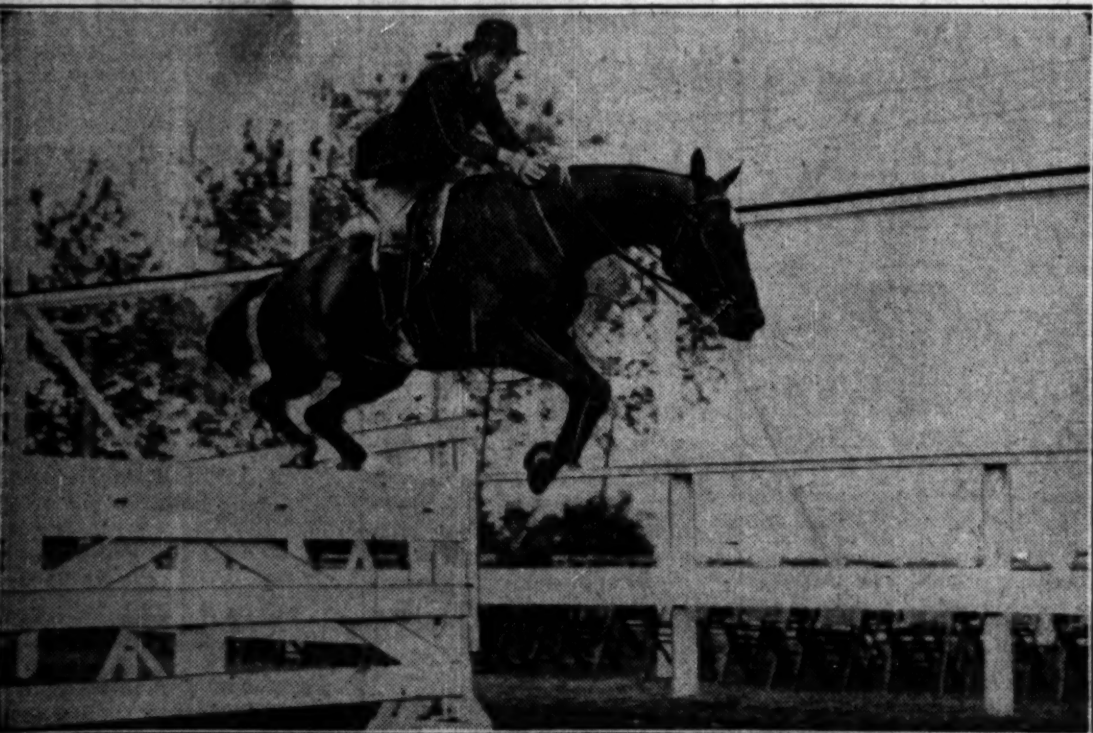

MORRIS MONTGOMERY WEDS FRANCES HOLBROOK. The bride and bridegroom as they appeared leaving St. Chrysostom's church, 1416 North Dearborn street.
(Tribune Photo.)
(Story on page 33.)

PLAN TO START ACROSS ATLANTIC TODAY. Jean Assolant (left) and Rene Le Fevre, who expect to leave Old Orchard, Me., for Paris early this morning.
(Story on page 1.)

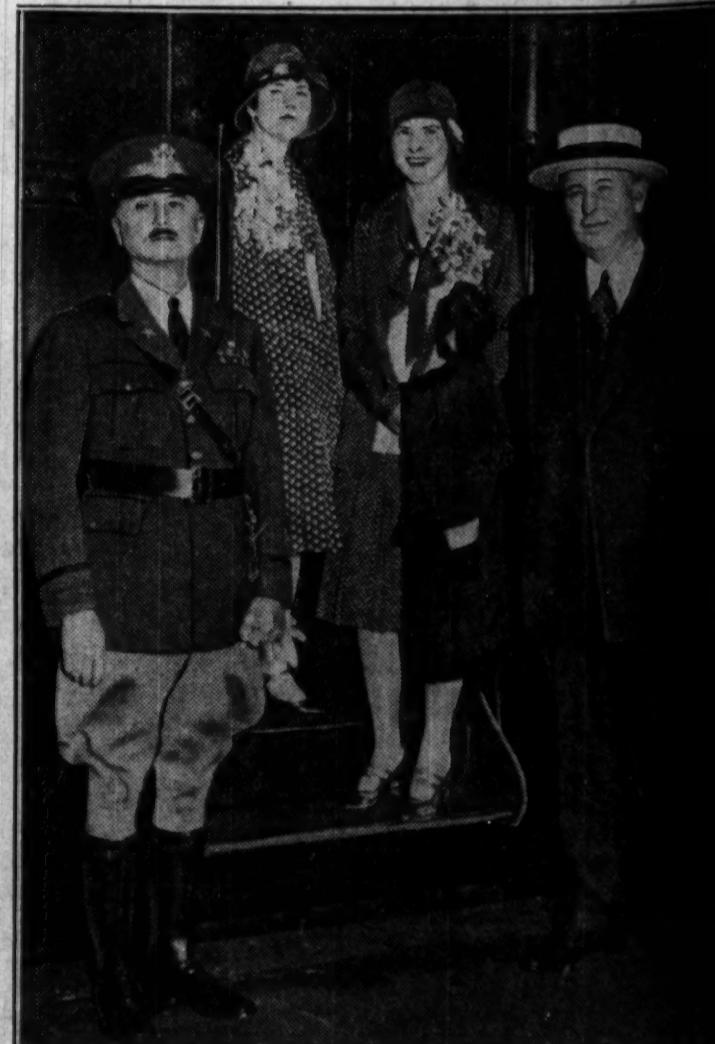

FRIEND OF MAYOR IS ROBBERS' VICTIM. Fred Mann, proprietor of the Hippodrome and Jai Alai Fronton, who was robbed in office of \$165 and jewels worth \$3,500.
(Tribune Photo.)
(Story on page 7.)

RIDES TO VICTORY IN LADIES' HUNTER CLASS AT HORSE SHOW. Miss Alice Walton on The Wizard, owned by the Sifton stable, which carried off the honors in its event at the South Shore Country club.
(Story on page 19.)

HIGH SCHOOL GIRLS WIN TRIPS TO EUROPE BY GIVING PLAY. Left to right: James A. Weber, Harrison High school teacher, who will conduct trip; Clara Ledecy, Valasta Vesely, and Adeline Kafecy, all 16 years old, who will cross Atlantic.
(Tribune Photo.)
(Story on page 33.)

FORMER WAR SECRETARY ON WAY TO THE PHILIPPINES. Left to right: Col. M. B. Stokes, chief of staff, 6th corps area; Miss Alita Davis, niece; Alice Davis, daughter, and Dwight F. Davis, new governor general of the Islands, at Union station.
(Story on page 11.)
